Subject: OPPOSITION TO PROPOSED DRINKING WATER FEE (PUBLIC COOMENT)

Dear Ms. Townsend & Others,

The Running Springs Water District Board of Directors **opposes** the proposed DRINKING WATER FEE REGULATIONS that would apparently cost the Running Springs Water District and its rate payers and additional approximately \$6,000 per year in regulatory fees to increase funding for California's Drinking Water Program and addressing drinking water issues by charging public water systems an annual fee.

Please include in the public comment record. Submitted June 22, 2016 at 3:30pm.
