**Subject:** treatment facility

To whom it may concern,

I am a Folsom resident. Like many others, I am barely holding on to my home as it is. Adding huge fee increases to the bills (and property taxes and state taxes and income taxes) that I pay seems untenable at this period in time. I care deeply about the environment, but this is not the right time for a project of this magnitude. Please reconsider going forward.

Respectfully,

Heather Sheffler Valdez
