

Transitional Stream Monitoring

Issue:

- Above and beyond 2013 Permit sampling requirements
- No technical benefit from increased frequency
- Over \$ 1 million for monitoring instead of implementation

Request:

- Allow EO Gibson the discretion to conditionally approve the stream monitoring proposed in the Water Quality Improvement Plans prior to approval

Stream Monitoring

	Year 1	Year 2	Year 3
2007 Permit	X	X	?
2013 Permit	√	√	X

X - required

√ - added

Stream Monitoring Tasks

- January – Budgeting
- May – Consultant Scopes of Work
- July – Obtain Permits
- August – Install 14 Stations
- September – Collect 24hr Dry Weather Sample
- October – Begin Wet Weather Sampling

Recommended Change to D.1.a

a. Transitional Receiving Water Monitoring

Until the monitoring requirements and schedules of Provisions D.1.b-e are incorporated into a Water Quality Improvement Plan that is accepted by the San Diego Water Board pursuant to Provision F.1.b, the Copermittees must conduct the following receiving water monitoring in the Watershed Management Area:

(1) Continue the receiving water monitoring programs required in Order Nos. R9-2007-0001 (Monitoring and Reporting Program No. R9-2007-0001 Sections II.A.1-A.5), R9-2009-0002, and R9-2010-0016, unless the Executive Officer provides conditional approval for Copermittees to proceed with implementation of the proposed monitoring and assessment program developed in accordance with Provision B.4;
