Notes:

1.- "Most of the Agencies' System Sizes are based on the online Collection System Questionnaires. The System Sizes for California State University San Marcos, US Navy, 22ND District Agricultural Association, and California Department of Corrections are based on the 2003 questionnaire or are not available (N/A) because these agencies have not completed the online Collection System Questionnaires. The System Sizes for El Toro Water District and Irvine Ranch Water District are based on the 2003 questionnaire because the online Collection System Questionnaires for these agencies includes the sewage collection system in Region 8 and 9. The System Sizes includes laterals that the agencies are responsible for and may not have been included in past reports."

2.- Average flow rate through collection system as of June 2003

3.- Volume of spills for the period in gallons divided by the amount conveyed for the period in million gallons
