STATE WATER RESOURCES CONTROL BOARD WORKSHOP MUNICIPAL STORM WATER PERMIT RECEIVING WATER LIMITATIONS LANGUAGE

The State Water Resources Control Board (State Water Board) has tentatively scheduled a workshop for Tuesday, November 20, 2012. The subject of the workshop is the "Receiving Water Limitations Language" found in National Pollutant Discharge Elimination System (NPDES) permits for storm water discharges from Municipal Separate Storm Sewer Systems (MS4s). The current Receiving Water Limitations Language is the result of precedential State [Water Board Orders WQ 2001-15](#) and [99-05](#).

The purpose of this workshop is for the State Water Board to hear stakeholder concerns with the current Receiving Water Limitations Language in light of the decision in the case of [NRDC v. County of Los Angeles](#) and to solicit recommendations on whether and how to modify the language.

The workshop will be held on:

Tuesday, November 20, 2012 - 9:00 a.m.
Joe Serna Jr.-Cal/EPA Headquarters Building
Coastal Hearing Room
1001 I Street, Second Floor
Sacramento, CA 95814

A quorum of Board members may be present at this workshop, but no final action will be taken at the workshop. Given the significant interest in this matter, the State Water Board is issuing this "save the date" notice well in advance of the workshop date. The Board will issue a subsequent notice soliciting comments and recommendations, and will also provide further information on the workshop format.

Additional information will be posted on the State Water Boards Web site at:
www.waterboards.ca.gov.
