

Dear Governor Brown and the State Water Board:

California is in a water crisis. The San Francisco Bay-Delta estuary is in a state of crisis because too much of its water is diverted to benefit corporate agribusiness. Please protect the Bay-Delta and all the associated benefits including its salmon, wildlife refuges and recreational opportunities.

As a first step, please require that 60% of the San Joaquin River's full natural flow makes it all the way to the San Francisco Bay-Delta estuary in the winter and spring. This is the level of San Joaquin River flow that the Board has determined necessary to fully protect our precious and irreplaceable natural resources.

Also, please ensure that all water users in California are meeting the highest standards for efficient water use, conservation, recycling and reuse. By signing below, I promise to do my part to use less water.

In conclusion, I urge you to take swift action to require that 60% of the River's natural flow reaches the Bay.

Sincerely,
