**Subject:** Don't be greedy with our water

State water board members,

I oppose an increase to unimpaired flows on the Stanislaus River. This is a God-given commitment to supply our region with water and that has sustained us for many years. And for you to take it away and hurt are locals in many ways is straight out wrong no matter how much they pay you. Many disapprove of your lack of management and your greed.

Thank you.

Albert Moreno
