Subject: Unimpaired flows hurt our area

Water board members,

I am opposed to increasing unimpaired flows on the Stanislaus River because what is currently being done is not for the good of the people! I'm not even sure it's good for the fish! We want our beautiful river back! We want to keep our water reserves safe and adequate for our needs! What has happened this past year, is nothing but very poor management! There should be a criminal investigation. We the people of the community should have a say! Policies are old and outdated, like those making these decisions! Time for some change. Please save our beautiful river, the fish just might do better on their own, like nature intended! Spend the time and resources on cleaning up the trash, and police and fine those who abuse our rivers and lakes! We need to grow up and start holding all involved accountable! My family has spent a lifetime enjoying the Stanislaus, and it would be tragic to lose it. Please listen and change!

Respectfully,

Tammy Bashor
Modesto
