State Water Resources Control Board, 255

Don't Divert Water from
Our Rivers. I live in a senior
mobile home park in Modesto & there
are few lawns here. Most of us have
rocks with rose bushes and fruit
bearing trees. We were allowed to
water twice a week - than once a
week. We obeyed the rules. My oranges
were small. Some of the fruit in this
park were not fit to eat. We need our
water right where it is. I will be
watering my plants when they need it this
year and not on someone's else's time table.
I live alone and do my part to conserve water
but I'm tired of living in this dust bowl.
