

Dear Chair Felicia Marcus and
Members of the State Water
Resources Control Board,

I am writing to you from the
American River! Literally, I am
standing in it. I am having
an amazing weekend rafting the
American River, and I want to
implore you to increase the flow
of water on California's major
tributaries into the Bay Delta.

Please continue to increase the

flow on the Tuolumne River
in particular to benefit down-
stream water users, wildlife,
and recreational interests. We need
to get to a 50% release rate.

Thank you very much for your
consideration,

Sara Barz
