

Dear Chair Felicia Marcus  
& Board Members,

In writing, as a love of the author of  
the Tule River. I support the  
reduced unimpacted flow of the  
Tule and Tule River. The  
movement to local environmental concerns  
salmon stocks. In order to do  
the new control plan should  
increase the flow percent to 50.  
Thank you for your consideration.
