NOTICE OF PUBLIC MEETINGS ON WATERSHED SELECTION FOR WATER SUPPLY AND DEMAND ASSESSMENT PROGRAM

State Water Resources Control Board (State Water Board or Board) staff will hold a series of public meetings to discuss and solicit input on the selection of watersheds for new water supply and demand modeling efforts. The meetings will introduce the Division of Water Rights' Supply and Demand Assessment Program, an overview of the Division's use of water supply and demand models as part of recent drought response efforts and provide an opportunity for input on efforts to develop water supply and demand models in select watersheds. See the attached fact sheet for more information. Although a quorum of the Board may attend the meetings, the State Water Board will not take any formal action. The meeting series will include three physical meeting locations with an option to attend the final meeting virtually. Details of the public meetings are as follows:
