Application of California-American Water Company (U210W) for Approval of the Monterey Peninsula Water Supply Project and Authorization to Recover All Present and Future Costs in Rates.

A.12-04-019
(Filed April 23, 2012)

**AMENDED APPLICATION OF
CALIFORNIA-AMERICAN WATER COMPANY (U210W)**

I. INTRODUCTION

The *Assigned Commissioner’s Ruling Directing California-American Water Company to Amend Application with New Project Description* was filed in this matter on February 22, 2016 (“February 22 Ruling”). Pursuant to the February 22 Ruling, California-American Water Company (“California American Water”) submits this amended Application.

II. DISCUSSION

On April 23, 2012, California American Water filed Application No. (“A.”) 12-04-019 (“April 23, 2012 Application”), requesting California Public Utilities Commission (“Commission”) approval of the Monterey Peninsula Water Supply Project (“MPWSP”) and authorization to recover all present and future costs for the MPWSP in rates. The April 23, 2012 Application contained “Appendix H: Updated CEQA Project Description,” which contains the MPWSP Project Description, as well as other Appendices relating to the Project Description.

The February 22 Ruling notes the Commission’s Energy Division and consultant are conducting the environmental review required under California’s Environmental Quality Act, and, as part of that review process, California American Water recently provided the Energy Division with an amended project description.¹ The February 22 Ruling then ordered California

¹ February 22 Ruling, at pp. 1-2.

American Water to “file and serve an amended application in this proceeding that provides a project description reflecting its proposed project configuration.”²

Through this Amended Application, California American Water provides an updated project description reflecting the proposed project configuration. California American Water does so by providing updated versions of Appendices B (Project Schedule), C (Project Map), E (Project Cost Estimate), and H (Project Description) (individually and collectively, “Updated Appendices”), which are included as Attachments hereto. California American Water previously provided the revised Project Schedule and Cost Estimate (Updated Appendices B and E) to the parties in this proceeding.³ The Updated Appendices B, C, E, and H shall replace in their entirety the corresponding Appendices in the April 23, 2012 Application.⁴ The Updated Appendices shall also supersede any portions of the April 23, 2012 Application with which the Updated Appendices are inconsistent. Finally, the Application, showing changes in red-lined and clean fashion, will be posted to the “watersupplyproject.org” website under the documents tab.

² February 22 Ruling, at p. 2.

³ Specifically, (1) the Project Schedule in Updated Appendix B was provided to parties on December 15, 2015 with the Supplemental Testimony of Richard Svindland as “Attachment 2,” thereto; (2) the Project Cost Estimate, Updated Appendix E, was also provided to parties on December 15, 2015, with the Supplemental Testimony of Richard Svindland, as “Attachment 1,” thereto.

⁴ The project cost estimates in Appendix E do not include Allowance for Funds Used During Construction (“AFUDC”). The estimated AFUDC is reflected in recent calculations provided in the Supplemental Testimony of Jeffrey T. Linam, served on January 22, 2016.
