c/o Jeanine Townsend, Clerk to the Board

Dear State Water Board Members:

I grew up in California and have always had the impression that we have the best environmental protections in the nation.

Yesterday I met with the founder of a national environmental waste company that is moving business out of California because the laws, he says, are not strong enough to make his service in demand.

We need to ensure that California keeps our water clean. Please make sure we have a protective Industrial General Stormwater Permit.

Thank you in advance for your good work on this.

Respectfully,  
Megan Baehrens, San Diego, CA

Sincerely,
