Re: Comment Letter – Draft Industrial General Permit

To Whom It May Concern:

These comments have been written on behalf of FedEx Freight in Oxnard, CA in regards to the State Water Resource Control Board's (SWRCB) proposed 2011 Draft Industrial General Permit for storm water discharges. We have several concerns with the new proposal and hope that the SWRCB will take our comments into consideration as they move forward with any revisions prior to adoption.

We at FedEx Freight have benefitted greatly from participating in CTA's Monitoring Group and have enjoyed their group training, assistance with filling out and sending the required forms, reduced costs and compliance responsibilities while at the same time contributing to maintaining high water quality.

Our company takes storm water pollution prevention very seriously and has continuously strived to and succeeded in complying with all of the requirements outlined within the existing permit.

Thank you for the opportunity to comment and for considering these views as you develop the final draft of the 2011 Industrial General Permit.

Sincerely,

A handwritten signature in black ink, appearing to read "Bart Burris", written over a horizontal line.
