

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 75-27

ADOPTION OF PRIORITY LIST ASSIGNING 1975-76
PROJECTS TO A PRIORITY CLASS AND SPECIFYING
ELIGIBILITY OF PRIORITY CLASSES FOR FISCAL
YEAR 1975-76

WHEREAS:

1. Article 4, Subchapter 7, Chapter 3, Title 23 of the California Administrative Code, provides for the establishment of a priority list for Clean Water Grants projects.
2. The State Water Resources Control Board has conducted a public hearing concerning the assignment of projects to the priority list for fiscal year 1975-76.
3. It is anticipated that priority classes A through D will be fundable.
4. Exhibits A, B, and C to this Resolution are attached hereto and made a part hereof by reference.
5. The projects listed in Exhibit A to this Resolution are in conformity with the criteria set forth in the State Board's regulations concerning priorities, as cited in paragraph 1, above, with the exception of those projects which are also listed in Exhibit B.
6. The Basin 5C, 5D, and 6B projects listed in Exhibit B to this Resolution are not in strict conformity with priority class criteria as defined in Section 2108 of the Board's regulations but the variance with Board criteria is minor and will be eliminated shortly after adoption of this priority list.
7. The Basin 2 projects listed in Exhibit B and all those projects listed in Exhibit C which the State Board staff has recommended be placed in a fundable priority class do not meet the requirements of the Board's criteria concerning priorities; however, the benefits to be derived from these projects are such that they should nevertheless be placed in a fundable priority.

THEREFORE BE IT RESOLVED:

1. Each project set forth in Exhibit A to this Resolution is assigned to the priority class specified in Exhibit A.

2. Each project listed in Exhibit C to this Resolution is assigned to the priority class, if any, recommended by the State Board staff as set forth in Exhibit C.
3. Priority Classes A - D constitute the first section of the Priority List as referred to in Sections 2112 and 2113 of the Clean Water Grants Regulations.

CERTIFICATION

The undersigned, Executive Officer of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on April 17, 1975.

Bill B. Dendy

Bill B. Dendy
Executive Officer

EXHIBIT B

FISCAL YEAR 1975-76 PRIORITY LIST

The following projects are shown on the preceding preliminary project list in Priority Classes A through D, but are not in strict conformance with the priority class criteria, as defined in Section 2108 of the Clean Water Grant Regulations. This is due to minor nature of the nonconformity. These projects are, however, recommended for the priority class as listed.

Agency	Priority Class	Nonconformance with Regulations
5C Coulterville Co. Service Area No. 1	B	Discharge prohibition adopted by Regional Board on 3-21-75, but not yet approved by State Board.
5D Kettleman City Community Services District	B	Discharge prohibition adopted by Regional Board on 3-21-75, but not yet approved by State Board.
2 BASSA	D, Step 1 only	Solids management study. No violation of WDR's
2 Central Contra Costa Sanitary District	D, Step 1 only	Solids management study. No violation of WDR's
2 North Bayside System Unit	D	Solids management study. No violation of WDR's. Incorrectly shown for Steps 1, 2, and 3. Should be Step 1 only.
2 Vallejo SFCD, Napa SD, American Canyon CWD	D, Step 1 only	Solids management study. No violation of WDR's
6B San Bernardino CSA No. 1	D	New waste discharge requirements to be adopted by Regional Board on 4-24-75. No existing WDR's.

REGION 2

<u>Agency</u>	<u>Description/Justification</u>	<u>Est. Cost</u>	<u>Regional Board Request</u>	<u>State Board Staff Comments/Recommendations</u>
San Francisco, City and County of	Project is for consolidation of outfalls in Islais Creek. Project is Group II	7,000,000 (Steps 2 & 3)		Elevate to Group I, Priority Class D, for Steps 2 & 3
San Francisco City and County of	Project is for screens on combined flow outfalls. Project is Group II.	2,000,000 (Steps 2 & 3)		Elevate to Group I, Priority Class D, for Steps 2 & 3
Las Gallinas Valley San. Dist.	Project is for reclamation facilities. Applicant has entered into 30-year contract with Marin Municipal Water District for direct reuse to irrigate landscape. Water reclaimed 5-6 months each year. Project will result in release of existing water supply in water short area for higher order use, thereby alleviating need for development of additional water supplies.	555,000 (Steps 1, 2, & 3)	Elevate from Priority Class H to D for Steps 1, 2, & 3	Elevate from Priority Class H to D for Step 1 only

SPECIAL CONSIDERATION REQUESTED BY
REGIONAL BOARD AND/OR STATE BOARD STAFF

REGION 2

<u>Agency</u>	<u>Description/Justification</u>	<u>Est. Cost</u>	<u>Regional Board Request</u>	<u>State Board Staff Comments/Recommendations</u>
Marin MWD & San. Dist. No. 1 of Marin Co.	Project is for reclamation facilities for Lower Ross Valley. Applicant has identified locations for immediate direct reuse and has contracts for same. Water used 5-6 months per year for landscape irrigation. Project will result in release of existing water supply in a water short area for a higher order use, and alleviate need to develop additional water supplies.	223,000 (Steps 1, 2, & 3)	Elevate from Priority Class H to D for Steps 1, 2, & 3	Elevate from Priority Class H to D for Step 1 only
Pacifica, City of	Infiltration/Inflow study and necessary sewer repairs to eliminate by-passing and overflows of untreated sewage during wet weather. Project is a Group III	2,080,000 (Steps 1, 2, & 3)	Elevate from Group III to Priority Class D for Steps 1, 2, & 3	Deny
N. Marin Co. Water District	Project is for collection, treatment and disposal facilities for Point Reyes Station to eliminate problems caused by septic tank failures which are contributing to the quarantine and restriction on recreational shellfishing and commercial shell-fishing operations in Tomolas Bay	1,325,000 (Steps 1, 2, & 3)	Elevate from Priority Class F to C for Steps 1, 2, & 3	Deny-serious health hazard not documented-no Regional Board prohibition of discharge
Central Contra Costa San. Dist.	Project is for interceptor to eliminate Bollinger Canyon leach line discharge. It eliminates a small treatment facility.	600,000 (Step 3)	Elevate from Priority Class E to C for Step 3	Deny

SPECIAL CONSIDERATION REQUESTED BY
REGIONAL BOARD AND/OR STATE BOARD STAFF

REGION 3

<u>Agency</u>	<u>Description/Justification</u>	<u>Est. Cost</u>	<u>Regional Board Request</u>	<u>State Board Staff Comments/Recommendations</u>
Scotts Valley, City of	Plant Laboratory and sludge handling facilities requested. City received 72-3 grant but eliminated laboratory facilities at that time. New city administration now desires laboratory. This project listed in Class G, 1975-76	86,000	Amend existing grant or issue change order	Deny

REGION 4

Gayucos Sanitary District	Project to replace 30 year old trunk sewer which connects district to City of Morro Bay disposal system. Subject to occasional failures in past, including discharges into coastal streams of untreated wastes, due to overflow and bypassing from pump stations as a result of inadequate pipeline and pumping equipment. Group III project.	350,000	Elevate to a fundable priority class.	Deny
Thousand Oaks, City of	Unit "Y" sewer relocation to Hill Canyon treatment plant. Sewer line above ground and subject to washouts and vandalism, resulting in spillages to Arroyo Conejo Creek in Wildwood Park. Line constructed in 1960. Group III project.	750,000	Elevate to Priority Class D.	Elevate to Priority Class D.
Ventura County PCD, United FCD	Retardation of seawater intrusion. Regional Board considers seawater intrusion serious problem and that there is a need to elevate and develop necessary data.	50,000 (Step 1)	Place in Priority Class D, Step 1 only.	Deny
Ventura Regional CSD, Los Angeles County SD	Project for Sludge/Industrial interceptor and Oxnard Sludge Treatment Facility. There is potential pollution and inland plants do not have adequate solids facilities. Need to evaluate economic feasibility of such facilities and develop necessary parameters.	50,000 (Step 1)	Place in Priority Class D, Step 1 only.	Deny
