

STATE WATER RESOURCES CONTROL BOARD  
RESOLUTION NO. 78-25

RELATING TO THE REQUEST OF LOUISIANA PACIFIC CORPORATION (LOUISIANA PACIFIC) AND CROWN SIMPSON PULP COMPANY (CROWN SIMPSON) FOR DELAY IN COMMENCEMENT OF TIME SCHEDULE FOR COMPLIANCE.

WHEREAS:

1. On June 23, 1977, the California Regional Water Quality Control Board, North Coast Region (Regional Board), adopted Regional Board Orders Nos. 77-109 and 77-110 which imposed on Louisiana Pacific and Crown Simpson an indefinite commencement date for a time schedule to achieve compliance with BPCTCA as specified by EPA Effluent Limitations Guidelines for the pulp, paper and paperboard point source category.
2. By its Order No. WQ 77-29, adopted on December 15, 1977, the State Board modified the applicable Regional Board Orders so that the time schedule for compliance with EPA Guidelines would commence on January 16, 1978, if the two companies failed to file a motion for a stay with the federal court by that date or on March 17, 1978 if the motion for a stay was filed by January 16, 1978.
3. The two month period from January 16, 1978 to March 17, 1978, was intended to allow a definite but reasonable time period for the two companies to obtain a ruling on their request for a court-ordered stay of the commencement of the time schedule.
4. Delays in resolution of the motion for a stay have occurred due to requests by the EPA for extensions of time in which to file its response to the motion and a final response was not filed by EPA until March 8, 1978.
5. It appears that an additional delay in commencement of the time schedule for compliance is warranted to allow for a ruling by the court.

THEREFORE BE IT RESOLVED:

That California Regional Water Quality Control Board, North Coast Region, Orders Nos. 77-109 and 77-110 are hereby modified to provide that the time schedule for completion of the tasks specified in Section I of said orders shall commence on June 20, 1978 or, if the court denies the motion for a stay, on such earlier date as the court denies said motion.
