

PROPOSED
STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 80- 61
SEPTEMBER 18, 1980

EXPRESSING APPRECIATION TO DR. ALVIN FRANKS

WHEREAS:

1. A thorough understanding of California geology is necessary to the development of a sound water program for California, and
2. Dr. Alvin Franks has given 28 years service as an engineering geologist, providing professional consulting service to the State Board, Regional Water Quality Control Boards and other state agencies, and
3. Dr. Alvin Franks has proven himself to be an outstanding geologist, providing needed information in usable form on a wide spectrum of controversial issues, and
4. The quality of Dr. Alvin Franks' work has immeasurably aided the California water regulatory program, providing a solid base of facts for decision-making,

THEREFORE BE IT RESOLVED:

That the State Water Resources Control Board on behalf of itself, the Regional Water Quality Control Boards and the people of California wish to thank Dr. Alvin Franks for services well and professionally provided, wish him well for the future and express regret at his departure.
