

STATE WATER RESOURCES CONTROL BOARD  
RESOLUTION NO. 84- 11

CONSIDERATION OF AN AMENDMENT TO THE WATER QUALITY CONTROL PLAN  
FOR THE CENTRAL COASTAL BASIN (REVISION AND AMENDMENT OF TABLE 2-1,  
"EXISTING AND ANTICIPATED USES OF INLAND SURFACE WATERS")

WHEREAS:

1. The California Regional Water Quality Control Board, Central Coast Region, (Regional Board) adopted the Water Quality Control Plan, Central Coastal Basin (basin plan) on March 14, 1975.
2. Chapter 2, Present and Potential Beneficial Uses, of the basin plan includes Table 2-1, Existing and Anticipated Uses of Inland Surface Waters.
3. In 1975, the U. S. Environmental Protection Agency (EPA) approved the basin plan upon the condition that a water contact recreation (REC-1) designation be added to those waters without a REC-1 designation in Table 2-1.
4. Many waters in the Central Coastal Basin are not accessible because of physical or legal reasons.
5. EPA deemed it appropriate to identify, by footnotes to Table 2-1, the physical or legal reasons that water contact recreation cannot take place.
6. The Regional Board conducted a survey of some of the waters listed in Table 2-1 to update REC-1 designations as part of the continuing planning process.
7. On September 16, 1983, the Regional Board adopted Resolution No. 83-14, Concerning Revisions and Amendment of the Water Quality Control Plan, Central Coastal Basin, (Revision and Amendment of Table 2-1, "Existing and Anticipated Uses of Inland Surface Waters").
8. Basin plan amendments do not become effective until approved by the State Board.
9. The State Board, after a thorough review of the Regional Board record, concludes that Resolution No. 83-14 is well documented, will protect water quality, and complies with EPA's conditions for approval.

THEREFORE BE IT RESOLVED:

That Table 2-1 of the basin plan be revised and amended as shown on Attachment A to Regional Board Resolution No. 83-14.
