

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 84-55

CONSIDERATION OF AN AMENDMENT OF THE COMPREHENSIVE WATER QUALITY CONTROL PLAN FOR THE SACRAMENTO RIVER (5A) BASIN TO REVISE THE EXISTING WATER QUALITY OBJECTIVES FOR COPPER AND ZINC, AND TO ADD A NEW OBJECTIVE FOR CADMIUM IN THE SACRAMENTO RIVER UPSTREAM OF HAMILTON CITY

WHEREAS:

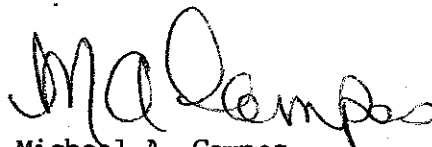

1. The California Regional Water Quality Control Board, Central Valley Region, (Central Valley Regional Board) adopted a Water Quality Control Plan for Basins 5A, 5B, 5C, and 5D (basin plan) on July 25, 1975.
2. Division 7 of the California Water Code requires that basin plans be periodically reviewed and, if appropriate, revised.
3. Central Valley Regional Board staff prepared documents and followed procedures to satisfy environmental documentation requirements of both the California Environmental Quality Act under Public Resources Code Section 21080.5 (Functional Equivalent), and the federal Clean Water Act.
4. On April 27, 1984, after a public hearing, the Central Valley Regional Board adopted Resolution No. 84-054, "Amending the Water Quality Control Plan for Water Quality Objectives for copper, zinc, and cadmium in the Upper Sacramento River Basin".
5. The State Board finds that the water quality objectives adopted by Central Valley Regional Board Resolution No. 84-054 are justified, reasonable, and should minimize water quality degradation and protect fish spawning areas.
6. On May 3, 1984, the Central Valley Regional Board submitted a request to the State Board for consideration of approval for the basin plan amendment.
7. The Central Valley Regional Board has followed appropriate procedures to satisfy all relevant state and federal statutes.
8. Basin plan amendments do not become effective until approved by the State Board.

THEREFORE BE IT RESOLVED:

That the State Board approve the amendment to the basin plan incorporating revisions to portions of Chapter 4 as adopted by Central Valley Regional Board Resolution No. 84-054.

CERTIFICATION

The undersigned, Executive Director of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on August 16, 1984.

Michael A. Campos
