2. In accordance with the SRF Policy, Section IV(C), the SWRCB may modify its priority list at any time to include new projects;
3. The Division of Clean Water Programs has approved the project report, environmental documents, draft revenue program, and water conservation plan, for the City's Wastewater Treatment Plant No. 1 Expansion Project; and
4. The City of Corona certified an Environmental Impact Report (State Clearinghouse No. 90020909) which has been reviewed and considered, and it has been determined that:
 - (a) Changes or alterations which have been required in, or incorporated into the proposed project which avoid or reduce to less than significant levels, the potentially significant environmental effects identified in the EIR with respect to:
 - (i) water quality impacts which will be mitigated by using a complete and approved grading plan to avoid siltation, and by using a properly sized emergency generator to prevent inadequately treated wastewater due to power failure; and (ii) cultural resources impacts which will be mitigated by using an archeological monitor and avoiding the bluff on which the CA-REV-1044 site is located.
 - (b) With respect to other potentially significant environmental impacts identified in the environmental documents, appropriate changes or alterations are not within the responsibility and jurisdiction of the SWRCB. Such other changes or alterations have been adopted or should be adopted by other agencies.

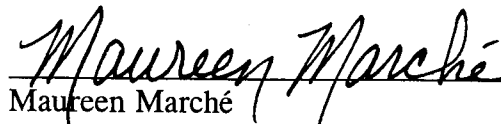

THEREFORE BE IT RESOLVED THAT:

THE STATE WATER RESOURCES CONTROL BOARD:
