

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 96-019

APPROVAL OF THE STATE WATER RESOURCES CONTROL BOARD (SWRCB)
AND REGIONAL WATER QUALITY CONTROL BOARD (RWQCB)
SCIENCE ADVISORY COMMITTEE

WHEREAS:

1. An External Program Review Committee was established for the SWRCB and nine RWQCBs pursuant to the Governor's request to SWRCB's Chairman John Caffrey in his letter dated July 26, 1993. One of the recommendations in the Review Committee's report was that the SWRCB form a Science Advisory Committee.
2. The SWRCB and RWQCBs have in the past successfully established committees to provide science advisory services in several different areas.
3. An efficient and pragmatic approach to meeting the External Program Review Committee's recommendation would be to build upon the existing SWRCB and RWQCBs' committee structure. As new needs arise, new committees will be established within the existing structure.
4. This approach would provide the most efficient way to provide the SWRCB and RWQCBs the advice they require on schedule. This approach allows for selecting advisors from a wide range of potential sources to provide impartial scientific advisory services.

THEREFORE BE IT RESOLVED THAT:

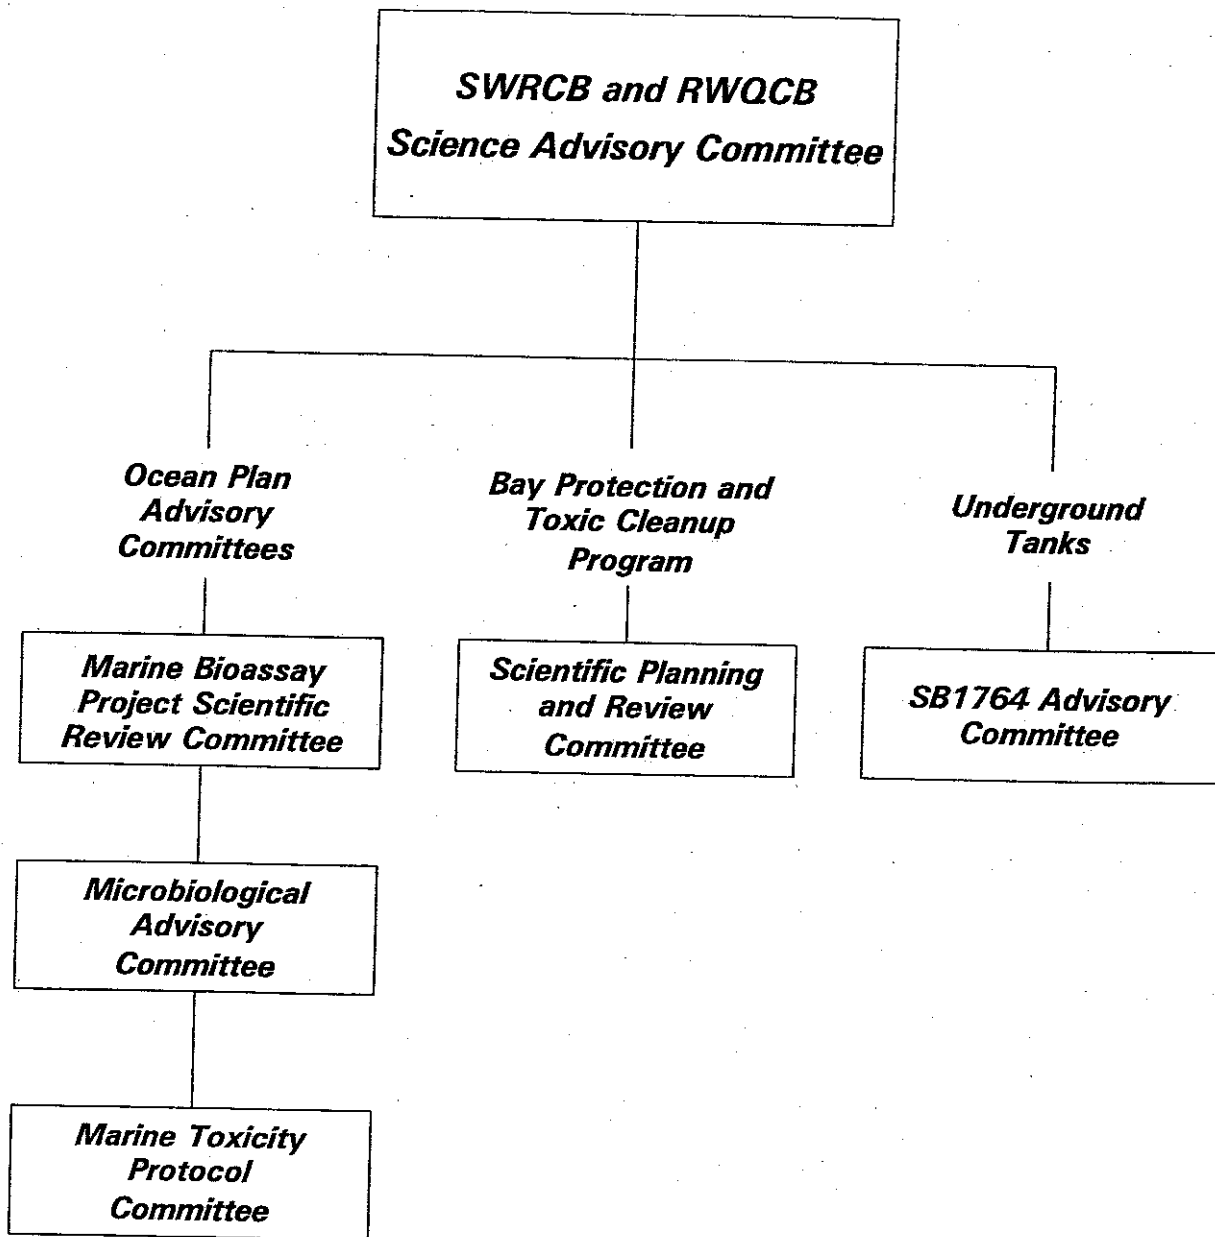

The SWRCB:

Adopts the existing framework for science advisory services as the basis for its Science Advisory Committee to be augmented when necessary for the benefit of all SWRCB and RWQCB organizations.

CERTIFICATION

The undersigned, Administrative Assistant to the Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on March 21, 1996.
