The Central Valley Regional Water Quality Control Board's (Central Valley Water Board) Water Quality Control Plan, for the Sacramento and San Joaquin River Basins, recommends that best management practices, consisting principally of water conservation measures, be implemented for the control of agricultural drainage;

7. The Project will help the District to achieve compliance with the Central Valley Water Board's Conditional Waiver of Waste Discharge Requirements for Discharges from Irrigated Lands; and,
8. The District has prepared a Negative Declaration (State Clearinghouse No. 2005101096) for the Project, which has been reviewed and adopted with a determination that the Project will not result in any significant environmental impacts.
