

**STATE WATER RESOURCES CONTROL BOARD  
RESOLUTION NO. 2022-0007**

**ADOPTING THE PROPOSED PRIORITIZATION OF DRINKING WATER  
REGULATIONS DEVELOPMENT FOR CALENDAR YEAR 2022**

**WHEREAS:**

1. All public water systems, as defined in Health and Safety Code section 116275, are subject to regulations adopted by the United States Environmental Protection Agency (U.S. EPA) under the Safe Drinking Water Act of 1974, as amended (42 U.S.C. 300f et seq.), as well as by the State Water Resources Control Board (State Water Board) under the California Safe Drinking Water Act (Health & Saf. Code, § 116270 et seq.).
2. California has been granted primary enforcement responsibility (primacy) by U.S. EPA for public water systems in California. California has no authority to enforce federal regulations, and federal laws and regulations require that California, in order to receive and maintain primacy, promulgate regulations for California that are no less stringent than the federal regulations.
3. The State Water Board is tasked with adopting drinking water regulations and recycled water regulations associated with the protection of public health. These regulations include primary drinking water standards (e.g., maximum contaminant levels (MCLs) or treatment techniques), monitoring and reporting requirements, and any other standards related to providing safe drinking water (e.g., operator requirements, laboratory accreditation standards, secondary drinking water standards, design standards, pipe separation standards, etc.).
4. Health and Safety Code section 116365, subdivision (g), requires the State Water Board to review each MCL at least once every five years and section 116365, subdivision (h), requires the State Water Board to provide, by March 1 of each year, notice of each primary drinking water standard it proposes to review that year and to solicit and consider public comment and hold one or more public hearings regarding any proposal to either amend or maintain an existing standard.

5. The Division of Drinking Water (Division) posts the MCL reviews on its website. The most recent reviews are available at: [MCL Review Process webpage](#).
6. The Division has established a proposed prioritized list for regulatory development projects for 2022.
7. The Division uses multiple factors to prioritize drinking water regulations, including the protection of public health, establishment of a new or revised federal regulation or rule, existence of statutory mandates, as well as the existence of other priorities and staffing resources available for the development and implementation of regulations.

THEREFORE, BE IT RESOLVED THAT:

The State Water Board directs the Division of Drinking Water to prioritize the development of drinking water regulations development during calendar year 2022 as follows:

1. Maximum Contaminant Levels
