

**STATE WATER RESOURCES CONTROL BOARD  
BOARD MEETING SESSION – DIVISION OF WATER QUALITY  
JUNE 5, 2012**

**ITEM 15**

**SUBJECT**

PRESENTATION BY THE SOUTHERN CALIFORNIA WATER COMMITTEE'S STORMWATER TASK FORCE ON STORM WATER CAPTURE OPPORTUNITIES

**DISCUSSION**

The Southern California Water Committee's Stormwater Task Force has authored a white paper on storm water capture opportunities. This paper provides an overview of the opportunities to capture storm water for the purposes of onsite use and groundwater recharge and does so within the context of watershed planning and municipal storm water permitting. Included in the paper are case studies of projects being implemented to capture storm water.

**POLICY ISSUE**

None – this is an informational item.

**FISCAL IMPACT**

None – this is an informational item.

**REGIONAL BOARD IMPACT**

None – this is an informational item.

**STAFF RECOMMENDATION**

None – the State Water Board is not being asked to take an action.

State Water Board action on this item will assist the Water Boards in addressing Priority 3 of the Water Board's Strategic Plan Update 2008/2012: Promote sustainable local water supplies.
