Subject: :“9/1/15 BOARD MEETING request from the local water agency(we arewater) water waste at the northern ca mount shasta

Greetings great day... as for our water is every other day night is missing-losing - (kiiling water) by many violators in the area as constantly wasting water in mount Shasta (healing drinking water supply what forms SACRAMENTO river). we been doing water watch and cleaning the rivers and creeks since 2013 and water watch since April 2015, we keep (continue) our constant work 9using our own resources) the laptop got broken now - we been asking for help and support from water board and keep asking for support to provide effective and acurate report.

our playlist:

https://www.youtube.com/playlist?list=PLgU6m3bvaQdrKtUo6e58qRVLSQV_z4VF6

the violation still happening and we need to speak up at the water board meeting as we see at the ground how water creeks is drying and public keep wasting (killing) OUR DRINKING SUPPLY.
- we ask to help us (\$38 one way) to come to Sacramento on sep 1st to attend (STATE WATER RESOURCES CONTROL BOARD BOARD MEETING) and present directly current situation (we self-employed and all our resources was is directed to help our water watch and maintenance of the creeks and rivers). as local authorities care less about even after You finance to install meters water keep wasting...

Thank you very much to help and assist our one Goal (saving our one water)

Dear Nazar,

Thank you for your communication via our California Water Service web site and e-mail service. We appreciate the opportunity to answer your questions and/or address your concerns.

I have received your online inquiry regarding a violation of current drought restrictions. Although we do not service the area you indicated, your inquiry has been forwarded on to City of Mount Shasta. Thank you for your concern.

Kind regards,

Dana Rasmusson
Interim Conserv Coordinator
