**Subject:** "2/2/16 BOARD MEETING (Conservation Extended Emergency Regulation)."

Hello -

We're customers of the San Juan Water District. I am writing to let you know that I feel it is premature to decide in Feb whether the conservation effort should be dropped down to 36%. With an incredibly powerful El Nino in progress, it would seem to make much more sense to evaluate this in April when the verdict is in on this winter's rain and snowfall.

Please reconsider this decision.

Thank you,

Tim Keester
