Dear Sir,

**I believe we should continue to have mandatory water conservation requirements. It may make sense to lessen the mandatory percent conservation goal and irrigation restrictions.**

**Subject:** RE: SWRCB Staff Proposal for Extended Emergency Regulation for Urban Water Conservation

**Hi Rick,**

**I believe we should continue to have mandatory water conservation requirements. It may make sense to lessen the mandatory percent conservation goal and irrigation restrictions. Once the state and SCVWD finalize their regulations/goals we will have to decide how to move forward.**
