DIVISION OF WATER RIGHTS

CALIFORNIA WATER SUPPLY STRATEGY – DIVISION OF WATER RIGHTS

Water Rights Modernization (*Action 4.3*)

Updating Water Rights Data for California (UPWARD): The Division of Water Rights began decommissioning its electronic Water Rights Information Management System (eWRIMS) on June 9, 2025. Data in eWRIMS will no longer be updated, but the public can still search for information. The Division plans to launch an early access version of the California Water Accounting, Tracking, and Reporting System (CalWATRS), which will replace eWRIMS, in July 2025. Early access will allow for feedback and refinements. In October 2025, CalWATRS will open for its first round of annual water use reporting. Information is available at waterboards.ca.gov/upward/calwatrs.

Supply & Demand Assessment: The Division of Water Rights continues to develop water supply models, water demand datasets, and water allocation tools for selected watersheds across California. Staff are actively engaging with agencies, partners, water users, and other interested parties to share information on the Supply and Demand Assessment Program and the models and tools that are under development.

In the past month, staff met with Marin Municipal Water District (May 16, 2025) regarding the Tomales-Drakes Bays watershed, Solano County Water Agency (June 4, 2025) at Monticello Dam regarding the Putah Creek watershed, the Russian River Water Sharing Program (June 5, 2025) regarding the Russian River watershed, the Trinity River Restoration Program (June 9, 2025) regarding the Trinity River watershed, and the County of San Luis Obispo and San Luis Obispo Basin Groundwater Sustainability Agency (June 11, 2025) regarding the Pismo Creek watershed.

Permitting and Enforcement Branch

Water Right Permits: In June 2025, the Division of Water Rights issued one permit. See table below for more details of the permit issued.

Primary Owner	Application ID	Permit ID	Date Issued	Brief Description
DUCKHORN WINE COMPANY	A030794	21471	6/11/2025	Permit authorizing diversion and use of up to 5.9 ace-feet from an Unnamed Stream tributary to the Navarro River in Mendocino County. Water will be diverted from December 15 each year to March 31 of the succeeding year at one point of diversion to storage in an onstream reservoir. Uses include

				irrigation, dust control, and incidental fire protection.

Bay-Delta and Hearings Branch

Rulemaking for Revisions to Measurement and Reporting Regulation (SB 88) –

Comment Period: On May 22, 2025, the Division of Water Rights released updated proposed regulation text, based on comments received during the previous public comment period. Comments were accepted through June 6, 2025.

Staff proposed updated revisions to California Code of Regulations, title 23, chapters 2 (Appropriation of Water), 2.7 (Water Diversion and Use Reports), and 2.8 (Measuring and Monitoring) that further clarify regulation text and refine definitions, extend deadlines for completing forms, clarify review processes, revise alternative compliance requirements, and remove reference to reporting in water right priority. Staff will review comments and make additional revisions available for public comment prior to Board adoption. Information is available on the [Water Measurement and Reporting Regulation Rulemaking webpage](#).

Water Quality Certification, Cannabis, Data Modernization, Water Supply & Demand, Instream Flows, Administrative, and Reporting Branch

Scott River and Shasta River Watersheds:

The State Water Board’s current emergency regulation for the Scott and Shasta River Watersheds is in effect through January 26, 2026.

Curtailments: Curtailments in the Scott River watershed and the Shasta River watershed remain suspended as of mid-June 2025 with flows in both watersheds above the minimum flow requirements. Heading into summer, staff will continue monitoring conditions in both watersheds and share updates via the Board’s [Scott River and Shasta River watersheds webpage](#) and “Scott-Shasta Drought & Flow Efforts” [email list](#).

Longer Term Efforts: On June 7, 2025, Division staff presented an update on modeling efforts in the Scott River and Shasta River watersheds at a meeting of the Klamath Basin Monitoring Program (KBMP). A recording of the presentation is available from KBMP [here](#). Later this year, staff plan to release for public review and comment draft models and model reports for both watersheds.

French Meadows Campground Rehabilitation Project: On June 3, 2025, the Executive Director issued a [water quality certification](#) for Placer County Water Agency’s French Meadows Campground Rehabilitation Project (Project). The Project involves updates to the French Meadows Campground to meet United States Forest Service accessibility standards. The updates include replacing eight drainage culverts, installing one new drainage culvert, and removing two small footbridges.

Sediment Management Practices at Democrat Dam for the Kern River No. 1

Hydroelectric Project: On June 5, 2025, the Executive Director issued a [water quality certification](#) for Southern California Edison Company's Sediment Management Practices at Democrat Dam for the Kern River No. 1 Hydroelectric Project (Project). The Project will facilitate ongoing sediment management practices at Democrat Dam (located on the Kern River) and prevent silting of the impoundment.

Nevada Irrigation District's Yuba Bear Hydroelectric Project: On June 12, 2025, State Water Board released, for public comment, a draft water quality certification for Nevada Irrigation District's Yuba Bear Hydroelectric Project (Project) Federal Energy Regulatory Commission relicensing. In addition to continued operation of the Project for 50 years, Nevada Irrigation District proposes to: (1) expand the existing Rollins Development to add the Rollins No. 2 Powerhouse, which will increase the Project's power generation capacity from 79.32 to 90.72 megawatts; (2) add five new streamflow gages; and (3) replace, upgrade, or install new recreation facilities. The Project's draft water quality certification is available on the [Project's webpage](https://www.waterboards.ca.gov/waterrights/water_issues/programs/water_quality_cert/yubabear_ferc2266.html) (https://www.waterboards.ca.gov/waterrights/water_issues/programs/water_quality_cert/yubabear_ferc2266.html).

Kanaka Hydroelectric Project: On June 19, 2025, State Water Board released, for public review and comment, a draft water quality certification for STS Hydroelectric LLC's Removal and Decommissioning of the Kanaka Powerhouse for the Kanaka Hydroelectric Project (Project) Federal Energy Regulatory Commission License Surrender. The Project is located on Sucker Run Creek, a tributary of South Fork Feather River that discharges directly into Lake Oroville. The Project involves the removal or decommissioning in place of the various components of the Kanaka Hydroelectric Project, with FERC License surrender the ultimate goal of the Project. The Projects' draft water quality certification is available on the [Division of Water Rights' water quality certifications program webpage](https://waterboards.ca.gov/waterrights/water_issues/programs/water_quality_cert/) (https://waterboards.ca.gov/waterrights/water_issues/programs/water_quality_cert/).

DIVISION OF WATER QUALITY

Oil and Gas Monitoring Program

On May 16, 2025, State Water Board staff issued to the California Geologic Energy Management Division (CalGEM) a [preliminary concurrence letter](#) for an aquifer exemption proposal to expand the aquifer exemption for oil-bearing portions of the Kern River and Chanac Formations below the 'C' (Capping) Silt in the Kern River Oil Field for Class II injection. The revised aquifer exemption proposal dated March 26, 2025, was reviewed in consultation with Central Valley Regional Water Quality Control Board staff and has been determined to meet both federal and state criteria. This preliminary concurrence is pending the upcoming two public comment processes anticipated to take place over the next year. More information regarding aquifer exemption reviews can be found on [CalGEM's Aquifer Exemptions webpage](#).

Irrigated Lands Regulatory Program Update: The Irrigated Lands Regulatory reports are included in Appendix A of this report.

Statewide Policies and Significant General Permits: The Statewide Policies and Significant General Permits report can be accessed at the [Statewide and Regional Policies / Significant General Permits website](#).

Sewer System Administrator Appointment for East Orosi CSD

On June 11, 2025, the Executive Director of the State Water Board adopted [Resolution No. 2025-0017-EXEC](#), Identifying the East Orosi Community Services District (East Orosi CSD) as a Designated Sewer System in Need of an Administrator, and [Water Quality Order No. 2025-0038-EXEC](#), Appointing Tulare County, Resources Management Agency, As a Full-Scope Administrator for East Orosi CSD. In August 2025, the State Water Board will certify its funding agreement with Tulare County RMA to execute funding for this project. Tulare County RMA is required within 120 days of appointment to submit to the State Water Board a Community Accountability and Engagement Plan and Post-Administrator Plan, with subsequent public engagement hosted by the administrator - Tulare County RMA. Minimum meeting and engagement requirements are outlined in the Division of Financial Assistance Administrator Policy Handbook. For more information visit the [Sewer System Administrators: Community and Program Information](#).

DIVISION OF FINANCIAL ASSISTANCE

Office of Sustainable Water Solutions (OSWS)

Planning/Construction Project Summary

The tables below summarize the planning and construction agreements and amendments approved in the month of May 2025.

Drinking Water

Drinking Water Funding Agreements Executed (May 2025)

Other Safe and Affordable Funding for Equity and Resilience (SAFER) Program Project Summary (includes Safe and Affordable Drinking Water Fund, Proposition 84 Emergency, General Fund, and CAA Urgent Drinking Water Needs funding sources)

The following SAFER agreements and amendments were approved in May 2025.

SAFER Program Approved Projects and Amendments (May 2025)						
PWSID	SAFER Status	Recipient	Project Purpose	Funding Amount	Funding Program	Category
CA5100107	Failing	Golden State Water	A time extension only was approved for Golden State Water Company's Robbins Bottled Water Project. This will extend the grant agreement for an additional two years until 3/31/2027. No changes in scope of work.	Time Extension only	SADW	Bottled Water

Emergency Repair Funding Programs

PWSID	SAFER Status	Water System Requesting Assistance	TA Provider	Emergency Type	Project Scope	Total Amount Approved
CA5400641	Failing	Teviston Community Services District	SHE	Loss of water supply or imminent threat thereof	Repair Well 03 by repairing submersible pump and motor, replacing 500' of cable, corroded columns, and providing HW	\$46,481
CA1500494	Failing	Wilson Road Water Community	SHE	Loss of water supply or imminent threat thereof	Replace Well 03 motor, providing BW, and HW to the residents.	\$12,232

Cleanup and Abatement Account Projects

No projects utilizing funding from the CAA were approved in May 2025 (see Administrator section for an amendment approval for an agreement funding a sewer administrator for the East Orosi community).

Schools Grant Programs

Drinking Water for Schools Round 2 Grant Program

District Name	School Name	Water System Name	PWSID	SAFER Status	Type of Approval	Duration	Number of Students/ Staff
Modesto City ESD	11 schools	City of Modesto	CA5010010	Not assessed	Access impaired	1 year	5511/654
Raymond-Knowles Union School District	Raymond Knowles ES	Cal Am-Raymond	CA2010012	At-risk	Access Impaired	1 year	85/17

Bottled Water for Schools Grant Program

No additions for May 2025.

University Enterprises Incorporated – PFAS Sampling Program

This program provides technical assistance to water systems for collecting and analyzing drinking water well samples for Per-and Polyfluoroalkyl Substances (PFAS) at all wells serving disadvantaged communities and severely disadvantaged communities, as required by State Water Board Order DW 2024-0002-DDW. Sampling and analysis services are provided by University Enterprises Incorporated, Office of Water Programs and their partners at no cost to the water systems. All drinking water wells will be sampled at least once. A second round of sampling will be decided by the State Water Board after the first round of sampling is complete. To date, 100% of eligible water systems (1,140 of 1,140) are registered to be sampled and 2,077 wells out of the 3,655 scheduled have been sampled.

DWSRF Future Significant Events

Intended Use Plan (Board Workshop)

Staff plan to release the proposed DWSRF Intended Use Plan (IUP) at the end of June 2025 and a Board Workshop to receive public comments is tentatively planned for July 2025.

Annual Report

Staff are now preparing the SFY 2024/25 Annual Report.

Technical Assistance – Lead Service Line Inventory

Through the U.S. EPA in-kind services, CDM Smith continues to provide technical assistance to community water systems (CWS) completing the initial lead service line inventory as required by the Lead and Copper Rule Revisions. Priority is being given to community water systems with 500 service connections or less serving disadvantaged communities (DAC). Applications for Lead Service Line (LSL) [technical assistance](#) are being accepted on a continuous basis. Currently, 139 eligible systems have received or are currently receiving assistance from CDM Smith for conducting, reviewing, and submitting their LSL inventories to DDW.

Projects for small, disadvantaged communities receiving principal forgiveness or grant funding are listed in the OSWS Section of this report.

DFA staff meet monthly to discuss progress of reviews and estimated project funding agreement execution. The State Water & Wastewater Infrastructure Forecasting Tool (SWWIFT) is updated monthly based on input from staff and used to track staff's overall progress towards funding projects on the Fundable List.

Water Recycling Funding Program (WRFP)

The Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024 (Proposition 4 or the Climate Bond), approved by voters in November 2024, authorizes \$10 billion to protect communities and nature from the impacts of climate change, such as drought, flooding, wildfire, extreme heat, and sea level rise; to reduce or remove carbon pollution where possible; and in some cases address existing environmental challenges exacerbated by climate change. Approximately \$386 million of the authorization was approved for water reuse and recycling projects. The WRFP

will use its current guidelines to award and implement existing projects. The Proposition 4 language also required the WRFP to develop guidance for large-scale projects. Staff incorporated large-scale project eligibilities and guidance in the draft 2025-26 Intended Use Plan.

Water Supply Strategy (WSS) (*Action 1.1 – Reuse at least 800,000 acre-feet of water per year by 2030 and 1.8 million acre-feet by 2040*) Update

The SFY 2024-25 CWSRF Intended Use Plan was adopted on August 6, 2024, and includes grant maximums for the Water Recycling Funding Program. The Governor's Proposed Budget for SFY 2025-26 proposes to reduce water recycling general fund appropriations by \$51 million. Staff will continue to encumber and fund project applications as they are ready to proceed and as additional funds through Proposition 4 become available.

DIVISION OF DRINKING WATER

Permits

Permits are issued when a public water system undertakes action that impacts public health (i.e. a new source of supply, modifying treatment or adding a large distribution reservoir), when the original permit has numerous amendments, or following new regulations or conditions that DDW deems necessary for the protection of public health.

The following 34 permits were uploaded between May 15 and June 10, 2025.

Water System	Permit Type	Permit Purpose
MANHATTAN BEACH - CITY, WATER DEPT.	PERMIT AMENDMENTS	INSTALLATION OF NEW MN SENSOR
TIERRA BONITA MUTUAL WATER	FULL PERMIT	ADD WELL NO. 2
TRANQUILLITY IRRIGATION DISTRICT	FULL PERMIT	ADDITION OF WELL A-11
O'NEILL VINTNERS & DISTILLERS	FULL PERMIT	POINT-OF-ENTRY TREATMENT, 3 YEARS
GAS N GRAB	FULL PERMIT	CHANGE OF OWNERSHIP, ADDITION OF ION EXCHANGE TRT SYSTEM, CURRENT OPS
CITY OF GARDEN GROVE	PERMIT AMENDMENTS	PERMIT AMENDMENT, CHANGE OF ACTIVE WELL 25 TO STANDBY
BIG BEAR LAKE DWP - BIG BEAR SYSTEM	PERMIT AMENDMENTS	CONSOLIDATION OF MOONRIDGE AND SUGARLOAF/ERWIN LAKE INTO BIG BEAR
MOUNTAIN VALLEY COMMUNITY CHURCH	FULL PERMIT	UPDATE TO REFLECT CURRENT OPERATIONS
MT. HERMON ASSOCIATION, INC.	FULL PERMIT	UPDATE PERMIT
CHURCH OF THE REDEEMER	FULL PERMIT	POINT-OF-USE TREATMENT, 3 YEARS, FOR NITRATE
TRUCKEE-DONNER PUD, MAIN	PERMIT AMENDMENTS	RED MOUNTAIN AND SKI-RUN TANKS
RIVER BEND RESORT	FULL PERMIT	INACTIVATE NEAR WELL
BURBANK-CITY, WATER DEPT.	PERMIT AMENDMENTS	VO WELLS BLENDING FOR HEX CHROME REDUCTION
PLEASANT VIEW WEST SCHOOL	PERMIT AMENDMENTS	INSTALL NINE POU-RO DEVICES TO REMOVE NITRATE
USMC NEBO (BARSTOW)	PERMIT AMENDMENTS	REACTIVATE WELL 18E HI-DESERT WATER DISTRICT

WARNER UNIFIED SCHOOL DISTRICT	FULL PERMIT	POINT-OF-USE ARSENIC FILTERS
CALIFORNIA WATER SERVICE CO. - HERM/REDO	PERMIT AMENDMENTS	NEW TRANSMISSION LINE, WELL 8-02 AT STATION 8 AND WELL 22-01 AT STATION 22 TO STATION 5, BLENDING
BELLA SHORES MOBILE HOME PARK	FULL PERMIT	ADD NEW WELL AND UPDATE PERMIT
GOLDEN STATE WC - PLACENTIA/YORBA LINDA	PERMIT AMENDMENTS	ADD LA JOLLA WELL #3
DE ANZA SPRINGS RESORT	FULL PERMIT	DDW ISSUED PERMIT
CITY OF MODESTO - GRAYSON	PERMIT AMENDMENTS	ADD WELL 69
DEFENSE DISTRIB. DEPOT - TRACY SITE	PERMIT AMENDMENTS	ADD WELL 10
REDWOOD VALLEY COUNTY WATER DISTRICT	FULL PERMIT	FULL PERMIT UPDATE
AUTOCAMP SEQUOIA	PERMIT AMENDMENTS	REFLECT CURRENT OPERATIONS
LINDA COUNTY WATER DISTRICT	PERMIT AMENDMENTS	TEMPORARY AUTHORIZATION FOR OPERATION OF WELL 17, WELL 17 TREATMENT PLANT AND 1.0 MILLION GALLON STORAGE TANK
BEAR CREEK WATER IMPROVEMENT	FULL PERMIT	PERMIT UPDATE TO REFLECT CURRENT OPERATIONS
CC FARMS, LLC.	FULL PERMIT	REFLECT CURRENT OPERATIONS
ASTORGAS WATER SYSTEM	FULL PERMIT	FORMERLY WAS KATHERINA MUELLER WATER SYSTEM
PALOMAR MTN. SP - DOANE VALLEY	PERMIT AMENDMENTS	NEW WELL AND CHLORINATION SYSTEM
SAN JOAQUIN, CITY OF	FULL PERMIT	ADDITION OF WELL 06 AND CURRENT OPERATIONS
GSWC-SOUTH SAN GABRIEL	PERMIT AMENDMENTS	SAN GABRIEL TP PFAS TREATMENT
JESS MARTIN COUNTY PARK	FULL PERMIT	REPLACE COUNTY LPA W/ NEW PERMIT
BEALE AIR FORCE BASE	PERMIT AMENDMENTS	TEMPORARY AUTHORIZATION FOR OPERATION OF WELLS 01-02 AND 09-02

BRANNAN ISLAND STATE REC. AREA	PERMIT AMENDMENTS	WELL 1 INACTIVATION
-----------------------------------	----------------------	---------------------

Violations & Enforcement Actions

Violations for a water system include whether the system failed to follow established monitoring and reporting schedules, failed to comply with mandated treatment techniques, violated any Maximum Contaminant Levels, or failed to communicate required information to customers. Enforcement Actions are used to obtain water system compliance with drinking water requirements to provide a safe and reliable supply of water. The Division of Drinking Water's formal enforcement actions involve the use of statutory authority and include issuance of citations and compliance orders.

The following enforcement actions were documented from May15 to June 12, 2025.

Public Water System	Violation	Contaminant or Rule
AERIAL ACRES WATER COMPANY, INC.	Monitoring	CHROMIUM, HEX
AERIAL ACRES WATER COMPANY, INC.	Monitoring	NITRATE
ALPINE ACRES MUTUAL WATER CO	Monitoring	CHROMIUM, HEX
ALPINE SPRINGS COUNTY WATER DISTRICT	Monitoring	CHROMIUM, HEX
ANZA PETROLEUM INC	Monitoring	RTCR
APPLE VALLEY FARMS	Other	VIOLATION OF A PERMIT CONDITION
BEAR VALLEY CSD	Monitoring	CHROMIUM, HEX
BELMONT COUNTRY CLUB	Monitoring	CHROMIUM, HEX
BLUE LAKE SPRINGS MUT WTR	Other	BACKFLOW AND CROSS CONNECTION VIOLATION
BOOTH RANCHES LLC	MCL	1,2,3 TCP
BOOTH RANCHES LLC	MCL	NITRATE
BOOTH RANCHES LLC	Variance/Exemption	1,2,3 TCP
BOOTH RANCHES LLC	Variance/Exemption	NITRATE
BORJON WINERY	Monitoring	RTCR
CALIFIA FARMS WATER SYSTEM	Monitoring	CHROMIUM, HEX
CALIFORNIA HOT SPRINGS WATER COMPANY	Monitoring	RTCR
CALTRANS CAMP ROBERTS RSRA NB	Monitoring	NITRATE

CALTRANS CAMP ROBERTS RSRA NB	Monitoring	RTCR
CALTRANS CAMP ROBERTS RSRA SB	Monitoring	RTCR
CANYON MEADOWS MUTUAL WATER	Monitoring	CHROMIUM, HEX
CHISAN ORCHIDS NURSERY	Monitoring	LCR
CITY OF GRASS VALLEY	Monitoring	CHROMIUM, HEX
CITY OF NEVADA CITY	Monitoring	CHROMIUM, HEX
CROSSOVER COMMUNITY CHURCH	Monitoring	RTCR
DEL MONTE FOODS, INC. PLANT #24	Monitoring	LCR
DEL ORO WATER COMPANY - STRAWBERRY DIV.	Other	SWTR
DEL ORO WATER COMPANY - STRAWBERRY DIV.	Treatment Technique	SWTR
DEL PASO MANOR COUNTY WATER DI	Monitoring	CHROMIUM, HEX
EASTON ESTATES WATER COMPANY	Monitoring	CHROMIUM, HEX
ELLWOOD MUTUAL WATER COMPANY	Monitoring	LCR
ELM COURT	Monitoring	CHROMIUM, HEX
FOLSOM STATE PRISON	Monitoring	CHROMIUM, HEX
FRAZIER PARK PUD	Monitoring	STATE VIOLATION-M&R (MAJOR)
GALT, CITY OF	Monitoring	CHROMIUM, HEX
HOLLAND PARK WEST	Monitoring	RTCR
INDIAN WELLS VALLEY W.D.	Monitoring	CHROMIUM, HEX
KERN VALLEY MUTUAL WATER COMPANY	Monitoring	CHROMIUM, HEX
KERN VALLEY MUTUAL WATER COMPANY	Monitoring	NITRATE
KIRKWOOD MEADOWS PUBLIC UTILITY DISTRICT	Monitoring	CHROMIUM, HEX
LEGACY PACKING AND COLD STORAGE	MCL	NITRATE
LEGACY PACKING AND COLD STORAGE	Variance/Exemption	NITRATE
MCKINNEY WATER DISTRICT	Monitoring	CHROMIUM, HEX

MOUNT MADONNA CENTER	Monitoring	RTCR
MUSCO FAMILY OLIVE CO	MCL	ARSENIC
PARK GREEN HOUSES WATER SYSTEM	MCL	NITRATE
PINON PINES MWC	Monitoring	CHROMIUM, HEX
PINON VALLEY WATER COMPANY	Monitoring	CHROMIUM, HEX
PLACER CSA - SHERIDAN	Monitoring	CHROMIUM, HEX
PYRAMID LAKE RV RESORT	Reporting	RTCR
QUINTERO LABOR CAMP #1 (WRIGHT RD)	Other	VIOLATION OF A PERMIT CONDITION
QVWD-WEST & EAST COMBINED WATER SYSTEM	Monitoring	CHROMIUM, HEX
RAND COMMUNITIES WATER DISTRICT	Monitoring	CHROMIUM, HEX
RIVERDALE VILLAGE	Monitoring	LCR
ROLLING HILLS MUTUAL WATER COMPANY	Other	CCR §64554 – SRC CAPACITY (CURTAILMENT)
ROLLING HILLS MUTUAL WATER COMPANY	Other	CCR §64602 – WATER OUTAGE (DROUGHT)
SAN CAYETANO MUTUAL WATER CO	Monitoring	CHROMIUM, HEX
SAN JOAQUIN WINE COMPANY	Monitoring	CHROMIUM, HEX
STOCO MUTUAL WATER COMPANY	Monitoring	LCR
STRICKLAND ACRES	Monitoring	CHROMIUM, HEX
SWS LAND DEVELOPMENT INC	Monitoring	CHROMIUM, HEX
TEHACHAPI, CITY OF	Monitoring	CHROMIUM, HEX
TEJON RANCH GRAPEVINE WATER	Monitoring	CHROMIUM, HEX
TEJON RANCH MAIN HEADQUARTERS	Monitoring	CHROMIUM, HEX
THOUSAND TRAILS SAN BENITO PRESERVE	Monitoring	RTCR
TRUCKEE-DONNER PUD - HIRSCHDALE	Monitoring	CHROMIUM, HEX
TWO TWENTY FOUR MOBILE HOME PK	Monitoring	CHROMIUM, HEX
V & P TRAILER COURT WATER SYSTEM	MCL	E. COLI

WARD WELL WATER COMPANY	Monitoring	CHROMIUM, HEX
WEST TECH INDUSTRIAL PARK	Monitoring	LCR
WHISPERING PINES MHP	Monitoring	CHROMIUM, HEX
WILSON ROAD WATER COMMUNITY	Monitoring	LCR
WINTERHAVEN MOBILE ESTATES	Monitoring	RTCR
YOSEMITE FORKS EST MUTUAL	Monitoring	CHROMIUM, HEX

Environmental Laboratory Accreditation Program (ELAP)

ELAP ACCREDITATIONS ISSUED – 2025		
	May 14, 2025 – June 11, 2025	Year-to-Date
New Accreditations	1	5
Renewed Accreditations	19	85
Reciprocity Accreditations	0	20
Amended Accreditations	20	81
Total	40	191

Technical Advisory Committee Meeting

ELAP held the meeting for the Environmental Laboratory Technical Advisory Committee (ELTAC) on June 5, 2025. The meeting was held both in-person and virtually, and covered topics to focus ELTAC's future priorities. One item of lengthy discussion centered on how the Tariffs and Supply Chain impact laboratory's abilities to both maintain and project testing to meet the Board's priority monitoring. A recording of the meeting will be posted soon, and ELTAC will hold a virtual meeting at the end of the month focused on this topic.

Enforcement

ELAP continues to work collaboratively with all Water Board programs to identify and address inappropriate laboratory practices and improve laboratory compliance with method and regulatory requirements through a progressive enforcement approach.

DIVISION OF ADMINISTRATIVE SERVICES

Update on Water Quality, Water Rights, Drinking Water and Environmental Laboratory Accreditation Program (ELAP) Fees Stakeholder Process

Staff held the following fees stakeholder meetings: June 10 – Drinking Water and ELAP and June 11 – Water Quality and Water Rights. Staff is planning to hold the following final stakeholder meetings to discuss FY 2025-26 fees: July 31– Water Quality and Water Rights and August 1 – Drinking Water and ELAP.

Investigative Orders

Region	Discharger/City	Violations Addressed/Action(s) Required	Date Issued
2	Hoodshang Hadjian/ Berkeley	13267 Directive requires an Investigation Work Plan to define lateral and vertical extent of contamination in groundwater and soil vapor from CVOCs, PCE, and TCE at the property located at 1840-1894 University Avenue in Berkeley.	5/12/2025
2	Chung Kim/ Vallejo	13267 Directive requires an Investigation Work Plan to evaluate potential chlorinated volatile organic compounds (CVOCs), tetrachloroethene (PCE), and trichloroethene (TCE) contamination in soil, soil vapor, and groundwater at the Willard Cleaners located at 1314 Georgia Street in Vallejo.	5/30/2025
3	Robert J Silva Farms/ Salinas	Requirement to submit the Sediment and Erosion Management Plan (SEMP) section of the Farm Water Quality Management Plan (Farm Plan) for the Garcia Ranch.	5/1/2025

3	Robert J Silva Farms/ Salinas	Requirement to submit the SEMP section of the Farm Plan for the Silva Home Ranch.	5/1/2025
3	Robert J Silva Farms/ Salinas	Requirement to submit the SEMP section of the Farm Plan for the Williams Ranch.	5/1/2025
3	Vistra Corporation and Moss Landing Power Company LLC/ Moss Landing	Requirement to submit a work plan to assess discharges and threats of discharges to groundwater resulting from the January 16, 2025 battery fire at building ML 300 at the Moss Landing Energy Storage Facility at 7301 Highway 1, Moss Landing	5/15/2025
4	HanSar Providencia Partners, LLC/ Burbank	13267 Order No. R4-2025-0100 requires named party to monitor VOCs present in soil vapor, sub-slab soil vapor, and indoor/outdoor air if they continue to deny entry at the property located at 164-172 West Providencia Avenue in Burbank.	5/9/2025
8	Stepan Co/ Anaheim	13383 Order for failure to submit Water Quality-Based Corrective Action (WQBCA) addressing exceedances of the Numeric Effluent Limitation (NEL) for zinc in the 2023-2024 reporting period. Requires a report evaluating potential pollutant sources and a revised Stormwater Pollution Prevention Plan (SWPPP).	5/6/2025
8	Future Foam/ Fullerton	13383 Order for failure to submit WQBCA) addressing exceedances of the NEL for zinc in the 2023-2024 reporting period. Requires a report evaluating potential pollutant sources and a revised SWPPP.	5/15/2025
8	Howmet Global Fastening Systems Inc / Fullerton	13383 Order for failure to submit WQBCA) addressing exceedances of the NEL for zinc and copper in the 2023-2024 reporting period. Requires a report evaluating potential pollutant sources and a revised SWPPP.	5/22/2025
8	Kirkhill Inc/ Brea	13383 Order for sampling and/or analysis errors for zinc during the 2023-2024 reporting year. 10 of the 12 zinc samples had results with qualifiers indicating uncertainty with the result.	5/22/2025

		Requires an evaluation of sampling and monitoring procedures, a revised SWPPP, and that all analyses employ sufficiently sensitive methods to determine compliance with the NELs.

Tribally-centered Fish Consumption Application In Development

The [SWAMP Bioaccumulation Monitoring Program](#) is in the very early phases of developing an interactive and user-friendly application that includes and contextualizes bioaccumulation monitoring data, consumption thresholds, advisories, and guidance associated with fish consumption and human health. The application will be tailored to the needs of California Tribal users who consume fish for subsistence and/or cultural purposes.

The project leads will be using the [app that provides culturally tailored fish consumption guidelines for the Anishinaabe](#) (Ojibwe and associated Great Lakes Tribes) as inspiration and plan on assembling a California Tribal Advisory Committee (TAC) to inform the development of the application. Development of the application for California will take place over the next three years.

The goal is to assemble the TAC and begin meeting by October 2025. The frequency and format of TAC meetings will depend on TAC members' interest and availability. TAC members will be asked to provide guidance related to application development decisions, features, and functionality as well as supporting the early review of the application when it is available.

If representatives of California Tribal Governments or Tribal Organizations or are interested in learning more or joining the TAC, please reach out to the Project Lead, Anna Holder, at: Anna.Holder@waterboards.ca.gov or (916) 341-5096.

FHAB pre-Memorial Day Holiday Assessment

The Freshwater and Estuarine Harmful Algal Bloom (FHAB) Program conducted the pre-Memorial holiday assessments for 2025. Sixty-nine sites were sampled across the state by Regional Water Boards, partners, cities, counties, and tribes.

- Fourteen waterbodies were issued caution advisory
- One waterbody was issued a warning advisory
- Four waterbodies were issued a danger advisory
- One waterbody issued a general awareness advisory
- Three waterbodies were issued a toxic algae alert advisory

All other waterbodies tested were not issued advisories for a harmful algal bloom presence. For more information on how these advisories are communicated and how the public can interpret them, please visit the [California Cyanobacteria Harmful Algal Bloom Network Portal](#). The Fourth of July pre-holiday assessment is scheduled from 6/10-6/24. All information from these pre-holiday assessments is published to the [HAB web map](#).

OFFICE OF RESEARCH, PLANNING, AND PERFORMANCE

Water Conservation

The response rate for the **April 2025** Urban Water Conservation Report is 89% as of the writing of this report (369 reports submitted). The estimated total production (accounting for missing reports) is 129.8 billion gallons (398.4 thousand acre-feet), and the statewide residential use is 67 gallons per capita per day.

For May 2025, the [Save Water](#) site received 201 water waste reports.

OFFICE OF CHIEF COUNSEL

Water Quality Petitions Currently Under Consideration for Review by the State Water Board (as of June 1, 2025)

The State Water Board is considering whether to grant review of the following current active petitions for review of regional water quality control board actions or failures to act in accordance with Water Code section 13320. These petitions for review will be dismissed by operation of law if (1) the State Water Board does not issue a letter granting review or (2) the State Water Board does not receive a written request from the petitioner that the petition be held in abeyance, prior to 5:00 p.m. on the corresponding deadline. Any exhibits identified in the petitions are available upon request by emailing waterqualitypetitions@waterboards.ca.gov.

PETITION NUMBER AND LINK TO PETITION	PETITION INFORMATION	DATE PETITION RECEIVED	DEADLINE FOR STATE WATER BOARD TO GRANT REVIEW
A-2904	Petition of The Toshio Takano and Kun Pou Takano Trust for Review of Water Code section 13267 Order No. R4-2025-0017 for 1001 South Mountain Avenue, Monrovia, Los Angeles County; Issued by the Los Angeles Regional Water Quality Control Board	4/4/2025	7/3/2025
A-2905	Petition of 1005 Mountain LLC for Review of Water Code section 13267 Order No. R4-2025-0018 for 1005 South Mountain Avenue, Monrovia, Los Angeles County; Issued by the Los Angeles Regional Water Quality Control Board	4/4/2025	7/3/2025

IRRIGATED REGULATORY LAND PROGRAM

Appendix A

June 2025

This month's Irrigated Lands Regulatory Program (ILRP) update provides a summary of significant activities of State Water Board staff for the month of May 2025; and the North Coast, San Francisco Bay, Central Coast, Los Angeles, Lahontan, Colorado River Basin, Santa Ana, and San Diego Regional Water Quality Control Boards (Regional Water Boards) from April 1, 2025, to May 31, 2025. Next month's report will discuss activities of the Central Valley Regional Water Board's recent program activities and up to date data on compliance and outreach activities.

State Water Board staff continued work with California State University, Sacramento, to convene an expert panel, as discussed in Order No. WQ 2023-0081, In the Matter of Review of General Waste Discharge Requirements for Discharges from Irrigated Lands Order No. R3-2021-0040. The panel selection process is almost complete following extensive targeted outreach. The first public meeting is expected to be held this summer. Staff are working internally with the Office of Information Management and Analysis (OIMA) to conduct further data analysis on reported Irrigation and Nitrogen Management Plans (INMP) and will provide the results to the panel. Staff are encouraging the public to sign up for the email list located on Agriculture webpage, which will distribute panel updates and information on public meetings.

State Water Board staff continued coordination with the California Department of Food and Agriculture (CDFA) contractor on the CDFA regulatory alignment study. By November 2025, a report will be presented detailing the final regulatory alignment recommendations.

San Francisco Bay Regional Water Board staff are updating program enrollment, invoicing, and Farm Plan information. Staff are also processing new enrollments and terminations, contacting and assisting new responsible parties, and resolving other issues as they arise.

Los Angeles Regional Water Board staff met with the Ventura County Agricultural Irrigated Lands Group (VCAILG) and their consultants to discuss implementation and next steps for Order No. R4-2023-0353, Waste Discharge Requirements for Discharges from Irrigated Agricultural Lands Within The Los Angeles Region (2023 Ag Order). Staff also met with the Los Angeles Irrigated Lands Group (LAILG) to discuss implementation and next steps for the 2023 Ag Order and compliance with the Ground Water Monitoring Trend requirements.

On April 15, 2025, Los Angeles Water Board staff held "office hours" from 10:00am – 4:30pm at the Farm Bureau for individual growers to ask parcel-specific questions on Total Maximum Daily Load (TMDL) compliance. Staff are planning to host more office hours and a workshop on TMDL discharge limitations Monitoring and Reporting Plan development in the coming months. The deadline for growers to submit a completed

Notice of Intent regarding TMDL compliance path was on April 24, 2025. Los Angeles Water Board staff are currently inventorying the submitted responses.

At the June 26, 2025, Los Angeles Water Board meeting, VCAILG will present an informational item on their ClearWater member portal that has been developed to help facilitate implementation of the 2023 Ag Order.

Colorado River Basin Regional Water Board staff met with Palo Verde Outfall Coalition to discuss technical and compliance issues in Palm Desert on May 5, 2025.

Staff revised the Monitoring and Reporting Program of the agricultural Order R7-2019-0030-05 on May 7, 2025, for the submission deadlines of nitrogen coefficients. The extension was requested by the Palo Verde Outfall Coalition to ensure consistency across coalitions and allow adequate time for coefficient development.

There were no significant program updates reported in the **North Coast, Central Coast, Lahontan, Santa Ana** and **San Diego Regional Water Boards** from April 1, 2025, to May 31, 2025.
