Background

The Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024 (Prop 4) was approved by California voters in the general election on November 5, 2024. The Prop 4 Stormwater Grant Program Guidelines establish the process and criteria that the State Water Board will use to solicit applications, evaluate and select applications, and award Grants for multi-benefit urban stormwater management projects through the Stormwater Grant Program.

Prop 4 provides \$110 million for multiple benefit urban stormwater management projects. After bond and program administration costs, approximately \$101.5 million will be available for projects. Stormwater and dry-weather runoff are underutilized sources of surface water and groundwater supplies. Instead of being viewed as a resource, they are often seen as a problem that must be moved to the ocean as quickly as possible or as a source of contamination, contributing to the loss of usable water supplies and the pollution and impairment of rivers, lakes, streams, and coastal waters.
