DISCUSSION

In 1982, the Regional Board adopted Waste Discharge Requirements Order No. 82-33 to regulate a sanitary wastewater discharge from the Montecito Verde II subdivision's onsite wastewater treatment system. The Nipomo Community services District completed subdivision hookup of this to the Nipomo Community Services District's area-wide sewer collection system in February 2003. Since the on-site septic tanks have been properly abandoned, waste discharge requirements are no longer necessary.
