**The Ocean Conservancy (signed by Sarah Newkirk, Kevin Collins and Jodi Frediani)** has submitted comments dated June 23, 2004.

1. Past Comments: Our concerns regarding all waivers on the July agenda are substantially identical to the concerns we expressed in prior comments. Dated January 30, 2004, and April 27, 2004. Consequently, we hereby incorporate our January 30 and April 27 comments by reference.

**STAFF RESPONSE:** Comment noted.

**REGIONAL BOARD STAFF** propose the following change to the Monitoring & Reporting Program because turbidity monitoring is only performed visually.

**SECTION 3.b.**

**SEDIMENT RELEASE REPORTING:** Whenever at least one cubic yard of soil is released to a waterway due to natural or anthropogenic causes, or when turbidity is **significantly** ~~over 100%~~ greater downstream compared to upstream (of a crossing or the Plan area), then this event shall be reported to the Board within 24 hours.
