California Regional Water Quality Control Board  
Central Coast Region  
895 Aerovista Place Suite 101  
San Luis Obispo, Ca. 93401-7906

April 14, 2004

Re: RWQCB Case No. 3518

Mr. Walsh:

Holdgrafer & Associates owns property at 260 Suburban road which has a water well which services the property at 225,235, 245 Tank Farm Road in which the MTBE levels have been greater than that of the levels mentioned in the CRWQCB letter of March 24, 2004 on the Pacific Bell site.

It is our belief that our MTBE problem originated from another source other than from our parcel. The Pacific Bell fuel dispensing equipment that was replaced in the past is high on the list as a source. It would be premature to allow Pacific Bell to close the case on the facility as there are adjoining neighbors to Pacific Bell property that are still affected by residual MTBE concentrations above the WQO's established for today's standards.

I have enclosed four of the latest test done on our well, the test are a requirement of the County Health Department and are done every three months.

If you have any questions please call me at (805) 543-2682.

Sincerely,

  
Garry Holdgrafer II  
Managing General Partner  
Holdgrafer & Associates
