Subject: Los Osos Valley residents perspectives on sewer

Mr. Briggs, attached is a letter for your files that I sent to the State Board to reject the compromise that would allow the LOCSD a two-year extension to find another site for the sewer. We are concerned that this includes the possibility that it could be moved into Los Osos Valley. Shiley Bianchi has the same letter, which she might have forwarded to you already. We are also developing a signature list of all those in the CSA-19 area (Los Osos and Clark Valleys outside the LOCSD) who oppose the sewer moving out town.
