Los Osos, Ca. 93402

Dear Directors:

I am a Los Osos resident who owns a home in the Prohibition Zone. My APN number is 074,111,014.

I have been assessed for the purchase of property and design of a wastewater plant as specified in engineering reports provided prior to the assessment vote. Location in the report was the "Tri-W site." The plant specified was a "gravity collection and treatment system." Disposal location was at "the Broderson site."

All assessments to date have been spent on the above sites and plant design as approved by the majority of property owners. In the event that the above sites and/or plant design are not used and it is my understanding that you have discontinued this project-the assessment is not valid and a refund is due the property owners.

I have been assessed and have been paying on my tax bills. I request repayment of all assessment paid through taxes, with interest at the maximum legal amount from the date paid until the date repaid, and a removal from the assessment from my tax bill.

Sincerely,

Joan Mensonides
