

10-4-05

Dear Mr Young

We were so disappointed after hearing about the letter from Roger Briggs dated 10-6-05. The CSD had worked feverishly to create a project that would work for everyone. Why have you changed your mind after all these negotiations in good faith. There is no need to fine us. We want a sewer, but not the Tri W site. Mainly because it does not address the salt water intrusion problem. This new board is honest and diligent and will not let you down. Please change your mind and that of the RWQCB and help us, not hinder us. We have worked so hard to elect new representatives that care about Los Osos.

Thankyou

Sincerely

Madene & Duncan McJannet
