NOTICE OF HEARING AND ISSUANCE OF ADMINISTRATIVE CIVIL LIABILITY COMPLAINT FOR FAILURE TO SUBMIT INDUSTRIAL STORM WATER GENERAL PERMIT ANNUAL REPORT; S&S LAND DEVELOPMENT, MOSS LANDING, MONTEREY COUNTY, WDID# 3 27S 012 685

Dear Mr. Silva:

In response to your failure to submit the 2005-2006 annual report as required by the *General Permit for Storm Water Discharges Associated with Industrial Activity, Water Quality Order No. 97-03-DWQ, NPDES No. CA000001* (General Permit), the Assistant Executive Officer of the Central Coast Regional Water Quality Control Board (Central Coast Water Board) hereby issues the enclosed Administrative Civil Liability Complaint No. R3-2007-0031. You are still required to submit the late report, if you have not already done so, and failure to do so could result in further late-reporting penalties. Though you may have already submitted the report, it was not received by the due date and is subject to the penalty described in the Complaint.

Should you choose to waive your right to a public hearing, an authorized agent must sign the attached waiver form, and return it to the Central Coast Water Board **no later than May 25, 2007**. Alternatively, if you elect to allow a hearing, it will occur on July 6, 2007, in the City of Watsonville. At that time, the Central Coast Water Board will hear public testimony and decide whether to affirm the action of the Assistant Executive Officer as described in the complaint, or refer the matter for judicial civil action.

Please note that comments and other written submissions that you want to provide to Water Board members for consideration at a hearing are also **due no later than 5 pm on Friday, May 25, 2007**. Written material received after the due date will not be provided to Water Board members or become part of the record, unless the Board Chair rules that exclusion would create a severe hardship and that no party (including Central Coast Water Board staff) will be prejudiced by the late submission. The Board Chair will make such a ruling at or before the hearing. Late submissions that consist of evidence (as opposed to policy statements or comments) will generally be deemed prejudicial unless all designated parties (see below) have time to consider the evidence before the meeting.

WDID# 3 27S 012 685

Complaint No. R3-2007-0031

Administrative Civil Liability

For

Violations of California Water Code

Section 13399.31

Industrial Storm Water General Permit
Violations

S&S LAND DEVELOPMENT IS HEREBY GIVEN NOTICE THAT:

1. S&S Land Development, an auto dismantler located at 516A Dolan Road, Moss Landing, in Monterey County (hereinafter Discharger), is alleged to have violated provisions of law for which the California Regional Water Quality Control Board, Central Coast Region (hereinafter, Central Coast Water Board), may impose civil liability pursuant to Section 13399.33 of the California Water Code.
2. Unless the Discharger waives the right to a hearing and pays the civil liability as described in this complaint, a hearing on this matter will be held before the Central Coast Water Board during a public meeting on July 6, 2007, in Watsonville, California. The Discharger and/or its representative(s) will have an opportunity to be heard and to contest the allegations in this complaint and the imposition of civil liability by the Central Coast Water Board. The Central Coast Water Board will mail the Discharger an agenda for the hearing not less than ten days before the hearing date.
3. At the hearing, the Central Coast Water Board will consider whether to affirm, decrease, or increase the proposed civil liability, or whether to refer the matter to the Attorney General for recovery of judicial civil liability, or to take any other action appropriate as a result of the hearing.
4. The State of California has adopted the *General Permit for Storm Water Discharges Associated with Industrial Activity, Water Quality Order No. 97-03-DWQ, NPDES No. CA000001* (General Permit). The General Permit requires industrial facilities to submit a Notice of Intent to comply with the General Permit if the facility presents a threat of waste discharge to waters of the state because of contact between a facility's industrial process and storm water runoff, or through non-stormwater discharges, as prescribed by the General Permit.

5. On November 12, 1996, the Discharger filed a Notice of Intent to comply with the terms of the General Permit. By filing a Notice of Intent, the Discharger agreed to comply with all terms and conditions of the General Permit, which requires the submittal of an annual report to the Central Coast Water Board by July 1st of each year.
6. On May 25, 2006, the Central Coast Water Board mailed a reminder notice to the Discharger stating that the 2005-2006 annual report was due no later than July 1, 2006.
7. The Discharger failed to submit its annual report on or before the July 1, 2006 due date, for the reporting period covering July 1, 2005, through June 30, 2006.
8. As required by California Water Code Section 13399.31, on August 1, 2006, the Central Coast Water Board issued a Notice of Violation for the Discharger's failure to submit the annual report. As further required by Section 13399.31, on September 6, 2006, the Central Coast Water Board issued a second Notice of Violation to the Discharger. On September 22, 2006, the Central Coast Water Board issued a third Notice of Violation to the Discharger. The Central Coast Water Board mailed the September 22nd Notice of Violation by certified mail, and received a return receipt confirming delivery to the Discharger at the same mailing address as the previous two Notices of Violation. On November 17, 2006, the Discharger faxed the annual report to the Central Coast Water Board, but the report was received more than 60 days after the date of the first Notice of Violation, and therefore requires the imposition of civil liability according to California Water Code Section 13399.31.
9. Pursuant to California Water Code Sections 13399.31 and 13399.33, if a discharger fails to submit an annual report within 60 days of the first Notice of Violation [13399.31(d)], the Central Coast Water Board must impose administrative civil liability of no less than \$1,000 [13399.33(c)].
10. The Discharger is in violation of the General Permit and California Water Code Section 13399.31 for failure to submit an annual report within 60 days of the first Notice of Violation, and is subject to penalties put forth in California Water Code Section 13399.33.
11. In accordance with Section 13399.33(c) of the California Water Code, the Discharger is civilly liable for no less than \$1,000.
12. To compel compliance from repeat violators, Section 1.D of the *State Water Resources Control Board Water Quality Enforcement Policy* states that water boards should quickly escalate enforcement actions to increasingly more formal and serious actions until compliance is achieved.
13. Central Coast Water Board records indicate that the Discharger has a history of failing to comply with the General Permit annual reporting requirements. The Central Coast Water Board Executive Officer issued past Notices of Violation to the Discharger for failing to submit a timely annual report as shown in the table below. This table does not include the three Notices of Violation sent for the 2005-2006 reporting period. The Discharger's history of repetitive annual reporting violations warrants civil liability in an amount greater than the \$1,000 minimum prescribed by California Water Code Section 13399.33(c).

Annual Reporting Violation History for S&S Land Development

Applicable Reporting Period	Notice of Violation Date
July 1, 1996 – June 30, 1997	July 17, 1997
July 1, 1997 – June 30, 1998	July 20, 1998
July 1, 1998 – June 30, 1999	October 25, 1999 (first notice)
July 1, 1998 – June 30, 1999	November 29, 1999 (second notice)
July 1, 2000 – June 30, 2001	August 1, 2001
July 1, 2004 – June 30, 2005	August 10, 2005 (first notice)
July 1, 2004 – June 30, 2005	September 14, 2005 (second notice)

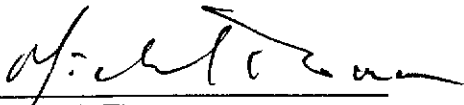

14. Nothing in this complaint relieves the Discharger of any reporting obligation under the General Permit, including the obligation to submit the annual report described above if the Discharger has not already done so. Failure to submit the annual report may subject the Discharger to additional enforcement action, including penalties accrued after the date of this complaint. The Discharger's submittal of the annual report at any time after the 60-day period following the first Notice of Violation does not relieve the Central Coast Water Board's obligation to impose civil liability of at least \$1,000 on the Discharger.

15. If the Discharger waives its right to a hearing and pays the civil liability recommended herein, this complaint only resolves liability that the Discharger incurred through the date of this complaint, for the violations specified herein, and does not relieve the Discharger from liability for any violations after the date of this complaint or any violations not alleged in the complaint (such as deficiencies in the annual report itself).

RECOMMENDED CIVIL LIABILITY: Considering the Discharger's history of violating the General Permit's annual reporting requirements, and the need to compel compliance from repeat violators by escalating enforcement actions, the Assistant Executive Officer recommends imposing civil liability in the amount of \$2,000.

WAIVER OF A HEARING: The Discharger may waive the right to a hearing. If the Discharger wishes to waive the right to a hearing, please sign the attached waiver and return it, along with a check in the amount of \$2,000, to the Central Coast Water Board at the mailing address shown in the above letterhead. Make the check payable to the State Water Resources Control Board, Waste Discharge Permit Fund, and write "ACL Complaint No. R3-2007-0031" on the check's memo line.

If you have any questions, please contact Mr. Todd Stanley at (805) 542-4769, or Harvey Packard at (805) 542-4639.
