Applicant's Agent: Confluence Restoration – Matt Quinn

Project Name: 145 Redwood Drive Bank Stabilization

Receiving Water: Shingle Mill Creek

City/County: Felton / Santa Cruz

Public Notice: May 30, 2024 – June 20, 2024

Project Description:

The project purpose is to stabilize the riverbank at 145 Redwood Drive.

The proposed project activities include:

- Dewatering a 110-foot-long portion of Shingle Mill Creek;
- Installing 4.2 cubic yards of rock slope protection (RSP) below the Ordinary High Watermark (OHW), and 21.5 cubic yards of RSP above the OHW;
- Installing 2.7 cubic yards of engineered streambed material;
- Installing a soldier pile wall along 22 linear feet of the project area;
- Removing the existing failing concrete and wood retaining walls, along with invasive plant species; and
- Revegetating the site area with a mix of willow cuttings and native riparian plantings.

The proposed mitigation activities include:

- Permittee responsible re-establishment of 0.01 acres / 93 linear feet of stream channel habitat.
