On 19 June 2013, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) issued a Notice of Applicability (NOA) under State Water Resources Control Board's Water Quality General Order 2003-0003-DWQ (Low Threat General Order), for construction dewatering. The Dischargers were assigned enrollee number **2003-0003-DWQ-0043**.

The Central Valley Water Board received a Notice of Termination dated 3 February 2025 stating completion of construction and that the discharges to land have ceased. Based on the submitted information, coverage under Order 2003-0003-DWQ-0043 is hereby rescinded.

If you have any questions about the rescission of coverage under the Low Threat General Order, please contact Scott Armstrong at (916) 464-4616 or at scott.armstrong@waterboards.ca.gov.
