CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD CENTRAL VALLEY REGION ORDER R5-2025-XXXX RESCINDING WASTE DISCHARGE REQUIREMENTS

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board), finds that the Board adopted the following Order which is no longer applicable for the reasons shown:

YOCHA DEHE WINTUN NATION, SEKA HILLS OLIVE MILL, YOLO COUNTY, WASTE DISCHARGE REQUIREMENTS ORDER R5-2013-0137

Waste Discharge Requirements Order R5-2013-0137, adopted on 4 October 2013, prescribes requirements for the discharge of wastewater from the Seka Hills Olive Mill (Facility) to land application areas located within three (3) separate parcels, consisting of four (4) separate fields for a total of approximately 183 acres. The parcels recently underwent lot line adjustments and transfer of land ownership from "Fee Land" to "Trust Land." Trust Land is land held by the U.S Department of Interior, Bureau of Indian Affairs in trust for the Tribe. Waste discharges will occur on Trust Land only. The Central Valley Water Board lacks regulatory authority over discharges that occur on Trust Land; however, it does retain the authority to enforce applicable laws, regulations, and policies related to degradation or pollution of surface water or groundwater insofar as such degradation or pollution associated with the previously permitted discharge is detectable outside the confines of Trust Land. No discharges will occur on Fee Land owned by the Tribe. Therefore, it is appropriate to rescind Waste Discharge Requirements Order R5-2013-0137.

IT IS HEREBY ORDERED that the above Orders are to be rescinded.

I, Patrick Pulupa, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on XX Month 2025.

TENTATIVE

PATRICK PULUPA, Executive Officer
