PUBLIC HEARING

Concerning

TENTATIVE ORDER

WASTE DISCHARGE REQUIREMENTS ORDER R5-2026-####
SAN FRANCISCO PUBLIC UTILITIES COMMISSION
2023 STORMS – SITE J14B REPAIRS PROJECT
TUOLUMNE COUNTY

A tentative Waste Discharge Requirements Order (Order) is proposed for the San Francisco Public Utilities Commission (Permittee), 2023 Storms – Site J14b Repairs Project (Project) in Tuolumne County. The Project will include repair activities at Site J14b where storm surge events in 2023 clogged and damaged an existing 24-inch diameter corrugated metal pipe (CMP) culvert that conveys an ephemeral stream crossing under a dirt access road. Repair activities include upsizing the 24-inch CMP culvert with a 36-inch CMP culvert, installing a headwall, endwall, and associated wingwalls, placing rock slope protection (RSP) at the inlet and outlet of the culvert, recontouring the area up and downstream of the culvert, and performing necessary road rehabilitation/stabilization.

The tentative Order provides details of the proposed Project activities, including compensatory mitigation measures planned to compensate for the permanent loss of waters of the state and requiring avoidance and minimization measures to reduce on-site impacts during construction activities. The tentative Order describes technical conditions required to be met throughout the implementation of construction activities that allow for activities to meet Basin Plan objectives.

A public hearing concerning this matter will be held during the Central Valley Regional Water Quality Control Board (Central Valley Water Board) meeting scheduled for:
