NOTICE OF TENTATIVE WASTE DISCHARGE REQUIREMENTS FOR TEICHERT MATERIALS ASPEN VIII AND IX EXPANSION PROJECT, SACRAMENTO COUNTY

TO ALL CONCERNED PERSONS AND AGENCIES:

Enclosed are tentative Waste Discharge Requirements for the Aspen VIII and IX Expansion Project in Sacramento County.

The Project will expand aggregate surface mining operations at the existing Teichert Materials Aspen VIII and Aspen IX mining sites. The expansion areas will add 245.6 acres of surface mining operations for sand and gravel. As a part of the expansion, Teichert is proposing to extend its existing electric conveyor belt system over Elder Creek to transport aggregate materials from Aspen IX to the Perkins processing facility, which will require a crossing of Elder Creek. The crossing, which will consist of a free-span rail-car bridge 50 feet long by 28 feet wide, will be installed without direct effects to Elder Creek. The Project site supports 16.19 acre of waters of the state, including vernal pools, seasonal wetlands, a seasonal pond, and a portion of Elder Creek. While Elder Creek will be avoided, mining operations will permanently impact all other waters of the state located on the Project site.

A public hearing concerning this matter will be held during the Central Valley Regional Water Quality Control Board (Central Valley Water Board) meeting scheduled for:
