

## EMPLOYEE RECOGNITION AWARD

July 2025

**EMPLOYEE:** Joshua Mahoney

**UNIT:** Oil Field Unit No. 1

**TITLE:** Water Resource Control Engineer

**SUPERVISOR/TITLE:** Rebecca Asami, Supervising Engineering Geologist

---

During the June Board, two permits were adopted under Josh's oversight - an amended set of waste discharge requirements, and a new set of individual waste discharge requirements. The ROWDs for these projects were very dense, both taking years of technical review. Josh is also reviewing several ROWDs for operators seeking to permit road mix facilities. In addition to these, Josh oversees PRA requests and sites permitted under the Low Threat General Order. His work is neat, technically sound, and reflective of Josh's institutional knowledge of our agency's plans, policies, and regulations.
