PROPOSED SITE CLEANUP CASE CLOSURE PUBLIC COMMENT PERIOD 12 May 2025-12 June 2025

PUBLIC NOTICE:

The Central Valley Regional Water Quality Control Board (Central Valley Water Board) is providing notice of a proposed No Further Action determination at 1686 East Beamer Street (Site) located in Woodland, Yolo County, California. A map showing the location is included as Figure 1.

CASE SUMMARY:

The Site was a manufacturing facility for fiberglass truck tops and tonneau covers. Historic chemical uses at the Site included resin, paint, gelcoat, adhesives, solvents, and cleaners. The Site was occupied by Truck Accessories Group (TAG). TAG has ceased operation at the Site.

Testing at the Site in 2019 and 2023 identified the chemical 1,1-dichloroethene (1,1-DCE) in groundwater, but not in soil or soil vapor. In 2024, three groundwater monitoring wells were installed at the Site. Tests after the installation of the monitoring wells show that 1,1-DCE is stable or decreasing in groundwater. The remaining low levels do not threaten drinking water.

The Central Valley Water Board is providing the public with an opportunity to comment on the request for No Further Action.
