
Central Valley Regional Water Quality Control Board

PUBLIC NOTICE: PROPOSED PETROLEUM SITE CLEANUP CASE CLOSURE

PUBLIC COMMENT PERIOD: 14 March through 13 April 2025 (30 days)

WHITE ARROW; 2402 S. CALIFORNIA STREET, STOCKTON, SAN JOAQUIN COUNTY; CASE #392011, GLOBAL ID T10000006629

The Central Valley Regional Water Quality Control Board (Central Valley Water Board) invites public comment on the proposed case closure of the White Arrow petroleum release case, located at 2402 S. California Street in Stockton, CA (Property). A map showing the investigation area is attached as Figure 1.

The Property is currently operated as a White Arrow freight and transportation company facility. The Property was formerly occupied by a brick manufacturing facility and a clay products manufacturer. An oil house (a type of new or waste oil storage) and a 600-gallon fuel oil above ground storage tank (AST) were removed from the Property sometime between 1917 and 1950. A fuel oil underground storage tank (UST) was removed from the Site sometime between 1950 and 1972. One gasoline UST and one diesel UST were removed from the Site sometime between 1972 and 2011.

In July 2011 Partner Engineering and Science Inc. (Partner) performed an initial environmental assessment of the Property. In 2014 and 2025, Partner advanced 13 soil and groundwater borings to investigate the petroleum releases on the Property. Soil samples collected contained some petroleum, though no deeper than 10 feet. The petroleum releases did not contaminate groundwater beneath the Property. Partner has concluded that residual petroleum in soil at the Property does not pose a risk to human health, the environment, or waters of the State. Central Valley Water Board staff agrees.

The Central Valley Water Board staff is issuing this notice to you and providing a 60-day public comment period to the owners and occupants of all properties adjacent to the White Arrow property and other interested parties. Central Valley Water Board staff will consider comments received when evaluating the case closure.

FOR MORE INFORMATION

You can obtain additional information on the [State Water Resources Control Board's GeoTracker webproperty](https://geotracker.waterboards.ca.gov/) (<https://geotracker.waterboards.ca.gov/>). Please contact Alan M. Buehler with the Central Valley Water Board if you have any comments or questions about this Public Notice or about the environmental cleanup activities at White Arrow:
