NOTICE IS HEREBY GIVEN THAT the California Regional Water Quality Control Board, Colorado River Basin Region (Regional Water Board) will accept written comments on the proposed underground storage tank (UST) case closure for Antunez Autobody (Site), 238 E. Main St., El Centro, CA, 92243.

This UST Site is being proposed for case closure pursuant to the State Water Resources Control Board's (State Water Board) *Water Quality Control Policy for Low-Threat UST Case Closure* (Low-Threat Closure Policy or Policy), adopted via Resolution No. 2012-0016 on August 17, 2012. Regional Water Board staff have completed a review of the case identified above and determined that the case meets the general and media-specific closure criteria of the Policy, complies with Health and Safety Code section 25296.10 and State Water Board Resolution 92-49, and will make a recommendation to the Regional Water Board's Executive Officer for case closure. This recommendation is based upon the facts and circumstances of this UST case.
