### **Project Description:**

SCE is continually repairing, maintaining, upgrading and replacing distribution facilities throughout its service territory. Ongoing operation and maintenance activities are necessary to ensure reliable service as mandated by the California Public Utilities Commission. This project constitutes a necessary line extension of an existing circuit and there are no practicable alternatives to the proposed discharge which have less adverse impacts than the proposed project.

The proposed Project involves removing and replacing three existing deteriorated wood poles (4034571E, 4034572E, 4034574E) and removing one existing wood pole and replacing it with a new pole in a slightly different location (1742452E - the new pole will have the same number as the nearby removed pole). Caissons may need to be installed to protect wood poles from high water tables or for stabilization in sandy or rocky situations.
