

# SMALL WATER SYSTEMS PROGRAM PLAN MONTHLY UPDATE

February 2013

## Summary:

The Small Water Systems Program Plan (SWSP) tracks the progress of small water systems that are in violation of a primary constituent MCL by meeting specific milestones. There are a total of **183** community water systems that have between 15 and 999 service connections listed on the SWSP. The total population targeted on the SWSP is approximately 60,000 and the total number of service connections is approximately 18,000. There are eight types of primary drinking water standards that are violated by these systems. The total numbers of water systems that are violating primary drinking water standards are: 107 Arsenic, 61 Nitrate, 11 Uranium, 2 Gross Alpha, 9 Surface Water, 2 Perchlorate, 1 DBCP, and 1 Fluoride (some systems exceed more than one standard).

## Progress:

A small water system listed on the SWSP is measured on progress in returning to compliance by meeting specific goals. These goals are as follows: issuance of a compliance order, submittal of a universal pre-application for funding, placement on the Safe Drinking Water State Revolving Fund (SDWSRF) project priority list (PPL), invitation for funding, submittal of a statement of intent (SOI) to pursue funding, submittal of a funding application, execution of a funding agreement, and finally, the return of the water system to compliance by solving the problem.

Progress statistics through February 2013 are as follows:

***NOTE: The number of systems included in the Program Plan has increased since the last progress update. The new total is 183.***

<b>Progress Measure</b>	<b>Current Status Total</b>	<b>Comments</b>
Systems with enforcement actions issued	176	
Systems with universal pre-applications submitted and placed on the PPL Ranked A-G	172	
Systems that received SRF funding invitation letter – Statement of Intent (SOI)	172	
Systems referred for Technical Assistance	122	
Systems that submitted SOI response to CDPH	97	Increase from January do to late SOI submittals and old archived data

# **SMALL WATER SYSTEMS PROGRAM PLAN MONTHLY UPDATE**

**February 2013**

<b>Progress Measure</b>	<b>Current Status Total</b>	<b>Comments</b>
Systems that submitted complete funding applications	118	
Systems with executed funding agreements	70	
• Planning	55	
• Construction	15	
Systems returned to compliance by solving problem	15	

## **Challenges:**

- None noted during this month

## **Water Systems Receiving Executed Construction Funding Agreement in February 2013:**

- 3610007 – Baseline Gardens MWC (San Bernardino County)
- 4210009 – Cuyama CSD (Santa Barbara County)
- 2701278 – Rancho Chaparral MWC (Monterey County)

## **Water Systems Solved in February 2013:**

- No systems solved in February 2013
