

STATE WATER RESOURCES CONTROL BOARD
REGIONAL WATER QUALITY CONTROL BOARDS

Summary

The Small Water Systems Plan (SWSP) tracks the progress of small water systems that are in violation of a primary constituent MCL by meeting specific milestones. There are a total of 183 community water systems that have between 15 and 999 service connections listed on the SWSP. The total population targeted on the SWSP is approximately 60,000 and the total number of service connections is approximately 18,000. There are eight types of primary drinking water standards that are violated by these systems. The total numbers of water systems that are violating primary drinking water standards are: 107 Arsenic, 61 Nitrate, 11 Uranium, 2 Gross Alpha, 9 Surface Water, 2 Perchlorate, 1 DBCP, and 1 Fluoride (some systems exceed more than one standard).

Progress

State Water Board staff measure the progress small water systems listed on the SWSP make in returning to compliance by meeting specific milestones/goals. These milestones/goals are as follows:

1. Issuance of a compliance order;
2. Submittal of a complete funding application;
3. Placement on the Drinking Water State Revolving Fund (DWSRF) Comprehensive List;
4. Execution of a funding agreement, and finally; and
5. Return of the water system to compliance by solving the problem.

Every system on the list has received an enforcement action. Progress statistics since the last update:

Progress Status	Previous Status Total	Current Status Total
Solved/Returned to Compliance	24	44
Exec. Construction	23	28
Exec. Planning	51	49
FA Issued	-	1
Under Review	38	33
Application Pending	-	2
In Progress	44	21
Not Funded	-	5
Total Funding (in millions)	\$99.2	\$134.1
