

# Lahontan Waterboard - Triennial Review - 2025

This Form solicits input regarding the 2025 Triennial Review of the Water Quality Control Plan for the Lahontan Region ("Basin Plan"). Candidate projects were presented at the Lahontan Water Board's regular November 2024 meeting. Your input may be used to alter candidate project descriptions, add new projects to the final list for consideration, and assign a value for the "public support" for each candidate project.

Please be aware that the open response questions have a 4000 character limit (including spaces) and make your responses as clear and complete as possible. Regional Water Board staff recommend that submitters first draft their responses in a word processor or similar software and then copy and paste the text into the Form.
